SHERIFF LINKED TO PINBALL OPERATORS

Vol. XVII, No. 28 Friday, Sept. 18, 1959 CL 4-4343 Lafayette-Orinda Ten Cents

'List of Operators Came from Sheriff'

Van Tassell Interrogated By Attorney General's Men

Pinball operators in the county were solicited for funds from a list prepared by the sheriff's office and they paid some $900 in January of this year to the County Improvement League, according to testimony of Raymond Van Tassell, Young's campaign manager.

In statements made to the attorney general's office Tuesday in San Francisco, Van Tassell admitted, or The Sun earlier had learned, that:

1. Pinball operators were to pay the bulk of the sheriff's campaign debts.

2. Some of the operators did pay in January, but not enough to pay off the entire debt owed.

3. A list of sheriff's personnel was compiled so that the County Improvement League would have a "nucleus of ticket sellers and contact men who could be trusted."

4. A pinball operator complained he was being "shaken down."

5. Van Tassell severed his relationship with the sheriff after the "sheriff vetoed the plans of the County Improvement League."

6. Young owes Van Tassell approximately $2500 for services from November to May.

County Improvement League for a campaign contribution to Sheriff Walter Young in January of this year, after Young was elected sheriff.

Bond, or as the story goes, Joe Angelo, Crockett constable, went to the sheriff's office and complained Bond was being "shaken down."

At this point, Undersheriff Harry Ramsay threw Van Tassell out of the office for allegedly trying to shake down the pinball operators for contributions.

THIS LIST OF pinball operators, according to Van Tassell, was given to him by the sheriff. The sheriff has stated that he knew Van Tassell had the list of pinball operators, but did not know how much money was collected by the County Improvement League, a group dedicated to the raising of funds to pay off Young's campaign debts, from the pinball operators.

Young says he never saw one cent of the money.

Clarence Linn, assistant attorney general in San Francisco, said, according to Van Tassell's testimony, it had become apparent that the pinball operators in Contra Costa County were slated to pay off Young's campaign debts, but the exact amount turned over to the County Improvement League for this purpose is not known yet.

THE PINBALL operators named in the list turned over to Van Tassell so "contributions could be solicited" are Joe Gilardi, of Brentwood, Bond of Richmond, Joe Silla Music Company of Oakland, Harry Russo and Joe Cook, Tri-Cities Amusement Company, Martinez; A. J. Powell, Martinez; Pesente Music Company, Vallejo; Eric Neufeld, Pleasant Hill; Joe Coy, El Cerrito; Joe Puccio, Pittsburg and F. W. Huchinson of Vallejo.

Virtually every pinball machine and a good many other amusement devices are operated in Contra Costa County by these men and their firms.

Van Tassell's appearance in San Francisco for three hours was his first official visit as a guest of the state. Court reporters were present and the transcript of the testimony will be released by Richard Sanders, Pittsburg attorney, who represented Van Tassell.

VAN TASSELL, under oath, in the attorney general's office, testified that the pinball operators were contacted as were other groups of businessmen, both before and after Young's election.

He said that most contributions to Young were in amounts between $10 and $25 and none were over a "few hundred dollars."

Asked why the County Improvement league was established, Van Tassell stated:

"I, Sheriff Young and District Attorney John Nejedly were in Nejedly's office. I asked what the best way to eliminate Young's campaign debts would be. Nejedly said the best way to pay off the debts would be to form a non-profit corporation," Van Tassell claimed .

SANDERS, SPEAKING of his client, said, Van Tassell has acted no differently than any other campaign manager and has been successful in getting a "good candidate elected."

Van Tassell, in an interview with The Sun, insisted that the pinball operators had given a small percentage of the total contributions in the original campaign and "even less to the County Improvement League.

The bulk of the interrogation was conducted by Linn and Charles O'Brien, assistant attorney general.

Another important tie in the long list of missing links confusing the investigation into the areas of vice and gambling in the county was made Tuesday in San Francisco.

THE MYSTERY over the real reason why the connection of Van Tassell and Young was severed was solved.

In a letter to Young, Van Tassell, in April, pointed out that the County Improvement League had been most successful," (but Young denies he received any money.) The letter continues, in effect, that the league's overall program, its interests and the sheriff's "are parallel," but "since the sheriff had vetoed the league's plans," the relationship between the league and the sheriff must be severed.

Strangely enough, the league was created to pay off the sheriff's debts; the sheriff didn't get any money; the league and the sheriff couldn't get along together.

INCLUDED WITH A letter was a statement for services, dating from November 1958 to May, 1959 for approximately $2500.

Young has paid off about $50 of this. Van Tassell said, "and is doing his best to pay off the rest of the bill," turned over to him by the group dedicated to help pay off his campaign debts.

"I informed the attorney general's men, and I swore to this fact, that I have never been tied up with organized crime elements," Van Tassell claimed.

"AS A MATTER OF fact, a number of the bar owners and pinball operators contributed to both sides during the election for political reasons," he argued.

Van Tassell, O'Brien, Sanders all agreed, the attorney general's office was interested in the occupation and amounts contributed by donors to the Walt Young For Sheriff Committee and to the County Improvement League.

The books of the Walt Young Committee and the campaign statements filed with the Secretary of State were subpoenaed by the attorney general's office several weeks ago and were returned to Van Tassell.

THE BOOKS OF THE County Improvement League are still in the hands of the attorney general.

Still another important fact was unearthed during the week Van Tassell requested a special list of all sheriff's personnel prepared for him. This fact was brought out in testimony before the Contra Costa Grand Jury.

The list was to give the County Improvement League a nucleus for ticket salesmen and contact men who could be "trusted" within the sheriff's office, Linn said.

Linn announced, after the meeting, that Van Tassell would not be called again "for the time being, but the attorney general's investigation is not concluded."

Pinball Winners At Shillalah Bar Paid Off in Cash

The Shillalah in Lafayette has been paying off winners of pin ball machines in cash.

The tavern had three pinball machines each costing 25 cents per play. Owner C. V. Mori, in a statement to The Sun denied that the bar's machines had been paying off.

Mori, when presented with the fact that four Sun staff members witnessed the pay off said:

"You seem to know all about it, what authority do you have to ask these questions?"

"None," replied The Sun, "we were just interested in the fact that neither the edicts of the Sheriff nor the District Attorney seem to affect either you or your payoffs."

At the club, September 10, a workingman won 40 games on a pinball machine. He reported this fact to the bartender and the games were taken off the machine. The payoff of the player, in cash, followed and the payoff was recorded in a book stored behind the bar.

Mori was at the bar when the payoff was made. In fact, two payoffs were witnessed within one hour and on both occasions they were made by the bartender in the presence of the owner.

Sheriff Issues 'NO COMMENT' On Vice, Gaming

Sheriff Walter F. Young issued a "No Comment" statement yesterday to questions concerning vice, gambling and pinball machines yesterday.

Questions to be posed by The Sun were:

"Why are multiple play pinball machines rampant in the county?"

"Why are payoffs being made on pinball machines?"

"Why was a list of pinball operators turned over to Raymond Van Tassell, your campaign manager?"

"How much money was turned over to you by Van Tassell?"

"What did Van Tassell do for you between November, 1958 and May, 1959? How did he earn $500 a month?"

"What are you going to do about pinball machines?"

"When?"

"Did you know a pinball operator had complained he had been shaken down?"

Cooper to Plea Today in County Superior Court

Assistant District Attorney David Levy will represent Contra Costa County this morning when Charles F. Cooper, indicted union boss, makes his plea in Superior Court.

District Attorney John Nejedly was to have represented the county, but he was subpoenaed Wednesday to appear as a witness today by Cooper's attorney, Robert Condon, ex-congressman.

COOPER WAS indicted by the county grand jury for allegedly attempting to bribe Nejedly.

Condon said he had Nejedly subpoenaed because Nejedly has not given Condon enough information to prepare a proper defense for Cooper.

Cooper was charged with attempting to offer a $150,000 bribe to Nejedly and Nejedly claims Cooper's principal was Big Bill Pechart, former gambling boss in Contra Costa County.

CONDON SAID he will question Nejedly on conversations Nejedly held with Cooper and the existence of recordings of telephone conversations between Nejedly and Cooper and Nejedly and Pechart, who is now a Nevada gambler.

Condon stated he had been informed that such recordings were played to the grand jury prior to its indictment of Cooper.

Superior Court Judge Wakefield Taylor, in addition to hearing Cooper's plea, will also rule on three motions to be made by Condon.

They are motions asking that the entire transcript of the grand jury hearings, some 30 hours of testimony, be released; that the indictment be dismissed and that Nejedly make available recordings of telephone conversations concerning the alleged bribe and written statements taken from potential witnesses against Cooper should the matter go to trial.

Gardiner to Appeal Zone Denial

Plan Body Votes No, 6-1, After 100 Enter Rooms

Lyle Gardiner, retired precision manufacurer, said he will appeal the County Planning Commission's denial of his application for a 20,000 square foot rezoning of 63 acres in the Minerinda area.

The Commission Tuesday voted 6-1 against the application, with Commissioner Robert Elliott of Richmond dissenting.

Nearly 100 Orinda residents, including members of the Orinda Association, the Canyon Improvement Association and the Minerinda Improvement Associaiton attended, and spoke against the application.

THE PRESENT county zoning is 40,000 square feet foot minimums, or about one acre.

Gardiner told The Sun he has offered to agree to a set maximum of 63 homes on the 63 acres, or even somewhat less.

His Martinez attorney has about three weeks to file the appeal, and notices will be sent to affected proeprty owners before the board of supervisors hearing.

The problem, Gardiner said earlier, was that the present 40,000 foot zoning will allow only 36 homes due to the rolling and uneven terrain. The 20,000 foot zoning would at the most allow one home per acre, also due to topography, he said.

HE SAID he will not grade the land, if 20,000 foot zoning is approved, but residents have replied he might sell the land and the buyer might feel he was not bound by such an agreement. Grading would increase the number of possible homes.

Orinda Association President Donald Anderson earlier said 80 per cent of the members are opposed to the rezoning.

They attended a planning commission meeting in August only to learn that the matter had been continued to this week.

Board Chairman Casts Deciding "Nay" Vote

The chairman of the Orinda Union School District board of trustees cast the tie-breaking vote Monday night against a motion aimed at pinning contractors down to monthly estimates of construction completion dates.

Chairman Nathan Gray cast the final dissenting vote against the motion, offered by Philip Bush, which would have forced the district superintendent, Joseph Sheaff, to require a monthly report stating on what exact date each school project will be completed.

GRAY SAID he took the action because "It serves no definite useful purpose to make the superintendent do this. He knows nothing about construction and whatever he would report would be 100 per cent hearsay.

"Besides, Mr. Sheaff has enough administrative matters to keep him busy."

Bush and Herbert Waterman voted for the motion, and Mrs. Russell Gilwee and H. Gordon Ainsworth cast negative votes.

THE MOTION was brought up during a discussion of progress on the first unit of the Inland Valley School. Bush charged that rumors were prevalent in Orinda giving several wrong dates for completion of the school building.

According to the construction contract, the school is to be completed November 23, but last month Sheaff reported that the architect, James Anderson, indicated progress was well ahead of that date.

Sheaff said nothing about the earlier completion date Monday night, but reported to the board that "progress is normal," and the contractor is working very rapidly on the job, and has a lot of men there.

HE INDICATED units 1 and 2 of the school, those which contain the classrooms, may be completed before the administrative unit, and that the whole project would probably be completed by the November 23 deadline.

Chairman Gray pointed out that "The end of Christmas vacation is quite realistic and logical as the target date for occupancy of the Inland Valley School if construction is finished by November 23."

Sheaff was asked by the board, however, to stick to the contract date and obtain weekly reports from the inspector on the job—indicating what might stall the project.

IN OTHER actions, the board:

1—Scheduled a special meeting September 28 for opening of bids on the Wagner Ranch School.

2—Formally hired Dr. James Jentges as assistant superintendent for business services — the first buiness manager the district has had.

3—**LEARNED** that total enrollment of the district as of Monday was 3228, 170 short of what was anticipated for this year, but about 175 higher than enrollment at the end of the last school year.

4—Agreed to continue the California Interscholastic Federation's insurance program because the other company, proposed by Sheaff, cannot furnish materials for presentation to parents and the district is prohibited from doing so.

Architect Picks Five Possible School Locations

Five possible sites for the location of a school on the Altarinda property have been selected by James H. Anderson, architect for the Orinda Union School District, trustees learned Monday night.

Anderson agreed to make the site selection for the board free of charge last month after he was asked to do so by the trustees.

OWNERS OF the property have indicated they will make part of the nearly 200-acre Altarinda property available for school district use, if and when it becomes feasible to construct a school plant there.

H. Gordon Ainsworth, one of the trustees, pointed out that the school district really is interested in only about 50 of the 200 acres—that portion which is level, and he added that Anederson's possible sites are all located within those 50 acres.

After learning of Anderson's selections, Robert Spott, one of the property owners, told District Superintendent Joseph Sheaff he wants to choose his own site, then meet with Anderson and the board to reach some conclusion regarding the location of a school.

TRUSTEES ASKED Sheaff to take steps to bring Spott and Anderson together at the earliest possible moment so that a decision can be reached.

The Altarinda property was also the topic of discussion at a Monday night meeting of the planning committee of the Orinda Association, but results of that session will be presented to the association's directors later this month.

New Freeway Detour Opened; Lanes Open, Too

There were some changes in traffic routings on sign route 24 between Orinda and Lafayette, made yesterday.

Completed eastbound freeway lanes are being used for both directions of traffic along the two mile construction project now underway in this area. This will permit completion of the westbound lanes.

EASTBOUND TRAFFIC movements to and from the freeway will be served at the Charles Hill Road and Acalanes Road interchanges.

Bus stops are provided in the immediate vicinity of these interchanges.

Westbound traffic movements to and from the freeway will be served by temporary on and off ramps just west of Charles Hill Road.

DURING CONSTRUCTION of the westbound lanes there will be no westbound on and off ramps at the Acalanes Road interchange.

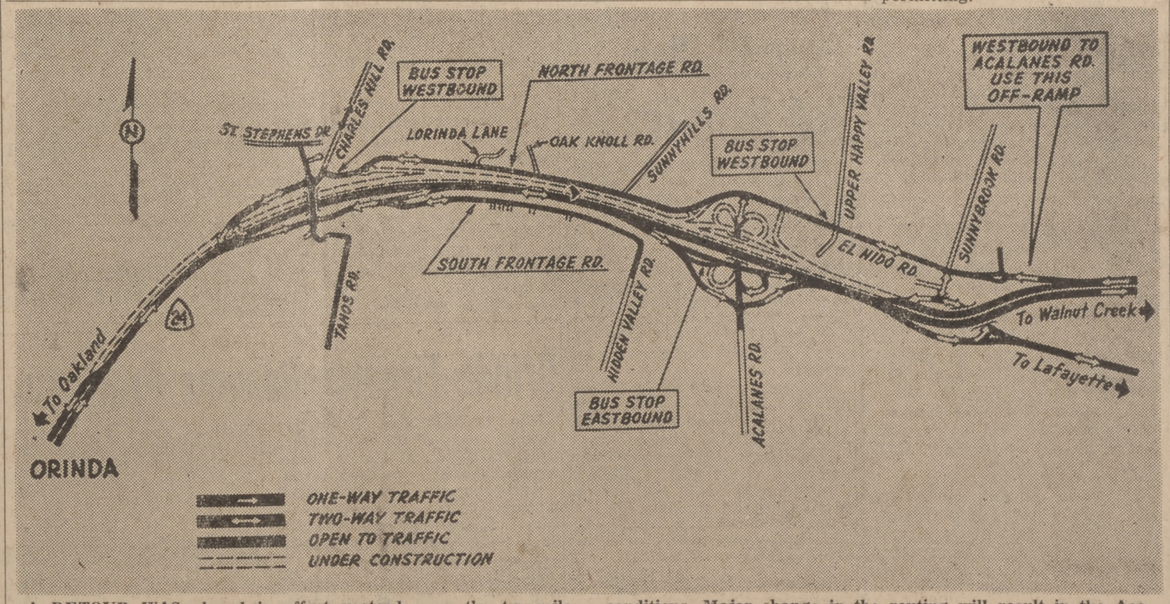

Westbound freeway traffic destined for this area will be routed via the existing off ramp to El Nido and via the North Frontage Road to Acalanes Road.

Local traffic on Mt. Diablo Boulevard, westbound from Lafayette and destined for Acalanes Road, should turn off at Sunnybrook Road to El Nido Road and proceed via the North Frontage Road to Acalanes Road.

WESTBOUND TRAFFIC from Acalanes Road should proceed via the North Frontage Road to the on ramp just west of Charles Hill Road.

Motorists are requested to use particular caution and be alert for construction activities which are under way through this area.

This $4,000,000 freeway project is expected to be completed in December 1959, weather permitting.

A DETOUR WAS placed in effect yesterday on the two-mile stretch of the Lafayette-Orinda section of the freeway. As the above map indicates, the newly-completed eastbound lanes of traffic on the freeway section will be used for two-way traffic until the westbound lanes are completed. The entire section is expected to be completed in December, barring bad weather conditions. Major change in the routing will result in the Acalanes Road area because during the remainder of the construction there will be no westbound on and off ramps. The eastbound lanes were completed about two weeks ahead of the October 1 target date.

Pink-Cheeked Danny to SF Airport, Sunday

Pink-cheeked Danny Isola and his gloriously happy parents, Mr. and Mrs. Larry Isola, will arrive Sunday at 3:45 p.m. at San Francisco International Airport, aboard a jetliner.

Danny, who underwent delicate surgery for a heart ailment in Children's Memorial Hospital, Chicago, will be whisked home by his Orinda mailman father, and for a month will have only very limited activities.

Mrs. Harold Engman of Orinda, chairman of the $10,000 Dollars for Danny drive, said Danny is "in fine shape," is eating solid foods and is especially happy since he received 94 "get well" cards in one day!

There will be no big reception for the six year old, since he is still weak from the operation, she said.

Danny had been a "blue baby" since birth, but shortly after the successful operation, pink tints began to flow through his skin, especially in his face.

The four and a half hour operation will enable Danny to live normally, but he will not be able to participate in sports. He will be able to swim and go into high altitudes, however.

Danny will be cared for by local doctors henceforth, Mrs. Engman said. The Isolas live in Concord.

Supervisors Sell Surplus Property

The County Board of Supervisors approved the sale of 14,130 square feet of surplus property to the Ian C. Beggs, 23 Avenida de Orinda, at its regular meeting last Tuesday.

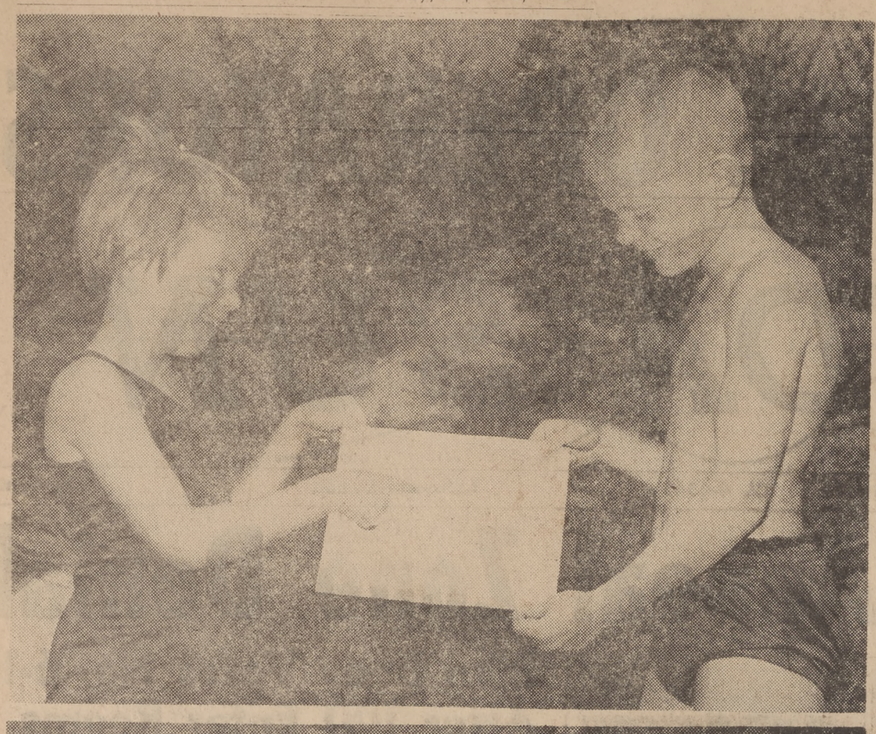

The Beggs entered the only bid, for $10,500, $500 more than the minimum set by the county.

Situated just west of Avenida de Orinda on Camino Pablo, the property became surplus after the Orinda Village bypass highway construction was completed.

Trustees Act On 2 Projects

Trustees of the Orinda Union School District took action Monday night to assure construction of two district projects by September 1960.

The school board authorized application to the state for funds to build a multi-purpose room at Del Rey School and a seventh and eighth grade section at Inland Valley School, the first unit of which will be completed later this year.

A CONTRACT with the architectural firm of Anderson, Simonds, Dusel and Campini of Oakland for drawing of the plans for the two projects was also approved by the trustees.

Joseph Sheaff, superintendent of the district, said the Del Rey construction will include facilities for the district's fourth cafeteria.

During the assembly, officers, directors and chairmen of the club will report on the year's activities.

Rare Wildlife Hits, Injures Orinda Canine

Even the veterinarians couldn't believe the unusual form of wildlife which was found in Orinda Monday night.

About dinner time, the G. Willara miners, 30 Las Cascades Road, were disturbed by the yelps and whines of their three dogs—Gringo, a six-year-old Labrador retriever; a Gordon setter; and a collie.

The Millers wandered across the street to a small creek bed, and found all three dogs cornering—believe it or not—a real live porcupine, a brand of animal such as is practically extinct in this area.

Saddest part of all is that the excited porcupine had shot out his quills at the three dogs, and a good many of them stuck Gringo in the face.

When Mrs. Miller arrived at the side of the dog, she found quills in the roof of his mouth, on his lips and tongue and down his throat.

The quills, which are very long, can cause an animal to choke to death when imbedded in the throat, so Mrs. Miller rushed Gringo to a veterinarian's office.

An anesthetic was administered, the quills were removed and by Tuesday afternoon, Gringo was fine.

In the turmoil, Miller shot the angry porcupine, the origin of which still is undetermined.

Orinda Firemen Resume Program

The Orinda Fire Protection District resumed its home safety program Monday after a three-month, summer vacation layoff.

According to Assistant Chief Al Winsor, the district will inspect homes for fire hazards from 1 to 3:30 p.m. each day, Monday through Friday.

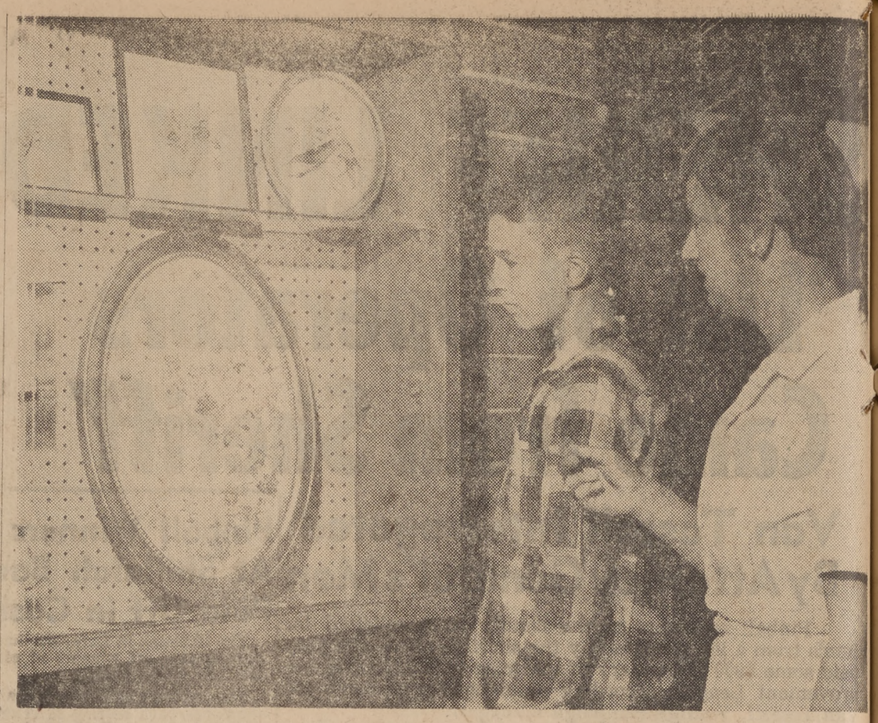

HE SAID a truck company will be taken to the homes for the inspection program, and will remain in service through radio communications.

Winsor also urged residents in the Orinda area not to telephone the station during a fire to ask questions about the emergency because calls tie up the switchboard and prohibit the dispatcher from making necessary calls, thus delaying service.

Saturday Classes

Saturday classes in modern dance, taught by Lynda Hickox Robinson and sponsored by the Valley Art Center, will begin September 26.

Level placement will be determined partially by previous experience and ability.

THIS LOVELY floral arrangement is one of the entries in the state art exhibit on display at the Orinda Library. King Nursery Gets Dealership

The King Nursery, 329 Rheem Boulevard, has been appointed a major dealer by the Olympic Stained Products Company of Seattle, according to George A. King, owner of the local company.

King said his company is now eligible to participate in the advertising and sales promotion campaign sponsored annually by Olympic which will begin soon.

AS A MAJOR DEALER, King Nursery will stock all colors of Olympic stain and will have the facilities of the Olympic plant in Seattle available for redwood stain and other Olympic finishes.

The fact that coating with stain eliminates many refinishing problems and that the product has extended durability were the two main reasons he decided to add the Olympic line, King reported.

Call St. Mary's For House, Yard Students' Work

The jet age is like a "slow boat to China" compared to the speed with which persons in the Lafayette-Orinda area can get help for house and garden work through the placement bureau at St. Mary's College, according to Brother Bede Edward, F.S.C.

He explained that St. Mary's students are available for most any kind of work, including babysitting, gardening and tutoring.

As evidence of the type of gardening the St. Mary's men do, Brother Bede Edward said one has only to look at the beautiful gardens in Lafayette and Orinda.

Interested persons may telephone DRake 6 4411 for employment of any St. Mary's student.

It's Risky-- Walking To School!

"Be careful on the way to school — and be careful after school hours," warns the Contra Costa County Student Protection Committee.

Said Chairman Norman Hawkins of Lafayette, "The committee is primarily concerned with safe walking to and from school. We urge parents to help make their children safety conscious, to go over the route to school with the child and point out the danger spots and what to do to be a safe walker."

"It's not the school children as such who get hurt," said County Traffic Engineer Mark Kermit, the committee's secretary. "It's the after-school children who get hurt. Children who walk safely to and from school are injured later on the same roads."

Kermit added that although Contra Costa County has an excellent safety record where school children are concerned, this can only be maintained through continued cooperation of parents, children, schools and the driving public.

"We can't relax. To maintain this record we have to keep constantly on the alert," he said.

The committee recommends the following "walker's code:" cross at crosswalks and watch traffic from all directions; cross at a walk, not a run; watch for backing or turning cars; face traffic when walking on the highway; be especially careful after dark or wear an article easily seen; leave and enter vehicles on the curb side; set a good example by obeying traffic laws and signs.

EBMUD Releases Finance Report: Net Worth Up

A substantial increase in the net value of the East Bay Municipal Utility District water system and sewage disposal system is shown in the EBMUD financial report released for the fiscal year 1958-1959.

Louis J. Breuner, president of the EBMUD board of directors, hailed the latest financial summary as supporting evidence of the utility district's financial stability and capacity for meeting the growing water needs of its service area.

"THE PUBLISHED statement for the fiscal year ended June 30, 1959," Breuner said, "shows the net value of the EBMUD water service plant and properties to be $157,517,477. The EBMUD sewage disposal system net value is shown as $21,852,473, or a combined total of $179,369,950. This is a combined net increase of $11,445,054 over the previous year."

The published financial report prepared by Lybrand, Ross Bros. and Montgomery Certified Public Accountants, shows a present bonded debt balance of $57,582,000 at the close of the 1958-1959 fiscal year. This balance reflects the Series A bonds dated March 1, 1959 in the amount of $25 million which were sold March 18.

This was the first increment of an additional bonded indebtedness of $252 million authorized at the June 3, 1958 primary to supplement available revenue from operations to finance a 10-year construction program.

AS TO PRIOR issues, the bonded debt of $34,692,000 for the water system at the beginning of the fiscal year was reduced by the retirement of bonds totaling $2,110,000 during the year. These transactions, also reflected in the debt balance shown, left a balance of $32,582,000 for the water system's three prior issues which initially totaled $77 million.

Revenue from water sales during the fiscal year amounted to $14,663,671, an increase of $1,357,848 over the previous year; a large proportion of which was due to the unusually hot dry year. Tax revenue totaled $2,852,437, an increase over the previous year of $88,492. Sale of electric power generated at the district's Pardee Dam Power House on the Mokelumne River provided $401,097.

Heart Group Hears 4 Rules, Picks President

A positive guarantee against heart disease was offered to those who would live by four rules set forth by Dr. Meyer Friedman, speaker at the Contra Costa County Heart Association annual meeting Monday evening at the Gold Nugget Restaurant, Concord.

Dr. Friedman, director of the Harold Brunn Institute of Mt. Zion Hospital, San Francisco, listed the rules in a talk entitled, "For Whom Not Soon the Bell Will Toll."

1. Never eat any food that does not grow out of the ground, fly through the air or glide through the sea or river.
2. **NEVER SMOKE** a cigarette.
3. Exercise 40 to 60 minutes every day, with no exceptions.
4. Avoid seemingly conquerable frustration.

He said the four rules were a composite of what all authorities say regarding prevention of heart disease. Dr. Friedman did not exclude pipe smoking. He himself smokes a pipe.

FROM HIS own observation, he stated that he had never seen a person under 65 or 70 years of age with heart disease who had not transgressed two of these rules.

Dr. Friedman's recent research projects have been concerned with tests involving stress and cholesterol in the diet.

"The most important of the seemingly conquerable frustrations is time," he said. "A person who would avoid heart disease must not indulge in squeezing events into a frame of time. He must not be greedy for event participation, whether it be social, economic, recreational or professional."

"It is far easier to change the diet than the stress attitude," he continued.

TO THE businessman, he advised, "No business ever failed from doing a job too well too slowly; rather it fails from doing a job too poorly too fast."

On the subject of inherited heart disease he said, "We don't know whether the person subject to stress inherits his behavior patterns or his arteries; but the best advice to those with such a pattern in the family is to slow down."

At the business meeting, Dr. Marvin A. Epstein, Walnut Creek physician, was elected president.

Other officers are Mrs. Harry Freed, Pittsburg, president-elect; Dr. Irving Fine, Pleasant Hill, vice president; Mrs. J. H. Schwarck, Orinda, secretary; and Mrs. W. B. Marschner, Walnut Creek, treasurer.

The new president is a graduate of Harvard and the University of Rochester Medical School. He has been engaged in the practice of internal medicine in Walnut Creek since 1951, except for a two-year term in the Army Medical Corps from 1953 to 1955.

Bay Rapid Transit Discussed by Unit

The date for an election on the San Francisco Bay Area Rapid Transit District's proposed bond issue was discussed by members of the Contra Costa Transite Liaison Committee yesterday. W. G. Buchanan, chairman, presided at the session in the Contra Costa Development Association's board room.

The committee, which represents all sections of the county in transit maters, also discussed whether to ask Governor Edmund G. Brown to place on a special session agenda a proposal to reduce the percentage of votes required to pass a district bond issue. It has been proposed that the required majority be reduced from two-thirds to 50 per cent.

The Rapid Transit district has an approximate target date of a year from next November for submission of an $800,000,000 bond issue to finance creation of a rapid transit system for the five Bay Area counties, including Contra Costa.

Math Teacher Turns Into 'Lean, Grizzled Hunter'

By NORMAN COLBY

Oscar Busch, rugged-appearing Acalanes High math teacher, went to work for Hollywood this summer.

But it wasn't necessary for him to develop all the actor's skills in becoming Jeff Emory, the "lean grizzled hunter"s tarred in the Walt Disney film, "Weecha, The Raccoon."

He has been riding horses, fishing and roughing it nearly all his life.

HIS BOYHOOD friend from Durango, Colo., Rutherford Montgomery, now a Hollywood writer, remembered this.

He called Busch just a few days before the end of school, last June. A screen test, and go to work, he said.

"My family and I had planned to visit Alaska this year, but this sounded good," he told The Sun.

The film was made in a wooded region at Felton, near Santa Cruz, also the setting of "Ann of Green Gables" with Shirley Temple, and "Romance of Rosy Ridge," with Van Johnson.

NOW ONLY a few days from completion, "Weecha" is about rabbits, the thrills of the chase, life-and-death struggles.

It is being produced by Tom McGowan for Disney, and first-rate Hollywood producers, scriptmen and camera men are handling it.

And Oscar Busch, alias Jeff Emory, takes second billing only to the animals.

"The story is about a dog and a raccoon who grew up together in the Appalachians near the Tennessee-North Carolina border," Busch said.

"I AM THE hunter who finds them, bring them home, and lives to regret it.

"In one scene, the raccoon gets loose, turns the rabbits loose, and the dogs start for the rabbits. And there's a good scene with a 30-pound raccoon taking on an 80-pound hound dog." (all with SPCA supervision, he adds.)

"Through a logical but intricate combination of events, Weecha manages to set the woodshop on fire," Busch explained.

"I worked on setting up this woodshop for weeks. On the basis of that set and others, Disney's second-in-command asked me to come to Hollywood to build sets, but that's not my line."

Busch pointed to scars on his hands.

"I STILL have them from the scene where Jeff Emory rushes into the burning workshop. I was supposed to stay close to the fire, and a large grinding wheel was spinning at my back.

"The fire got too hot, but the cameraman who signal rescue men when things get out of hand, didn't know this. I backed into the grinding wheel, lost a chunk of my back, and got good and singed in front.

"The cameras kept going, and they printed it.

"In another scene," he continued, "I was supposed to transfer a racoon from one cage to another, and just in time, as a pack of dogs rush the cage.

"EACH TIME we went through the scene the dogs would get a little closer to winning the race. You can lose a hand doing that."

If the actors have problems, so do the producers.

"A Hollywood producer is a tough man. Otherwise he wouldn't be doing it. They don't take no for an answer. No problem is too big for them. And sometimes they have to make up their own rules to keep the shooting schedule going."

How about the animal actors? What are their problems?

BUSCH SAID, "We have expert animal trainers there, but you never know with an animal, no matter how much you pay him.

"One day he is a star, and the next day he's a wash-out. And it's no good pushing him. If one thing doesn't pan out, you go to something else. He knows a lot of tricks, but is a prima-donna like his human friends never can be.

"Another problem with the animal is that he grows. Without animals in the picture, you can shoot almost any sequence, and arrange them in order later.

"But, doing that in an animal picture might have the effect of Weecha getting younger and younger as the story develops. Hollywood has a good example of that—it was the story of Dirty Eddie, the dog. He started out weighing 250 pounds, and ended up as a piglet."

Busch said he hoped to finish up by school time, but now he will have to return to Felton for another weekend or two, before the job is done.

DURING THE summer he worked 12 to 18 hours a day, acting, building sets, helping at a variety of necessary jobs. He worked Sundays, and got home only once or twice.

His family came to see him, however. Elizabeth, 14, got a script girl job, Mickey, 16, was a backstage roustabout, Julie, 17, and her mother, Georgia, visited several times. Greg, a seventh grader, stayed home.

The hours were long but the eats were in the true Hollywood style.

"Mrs. Redden fixed two or three meat dishes for each meal. They were banquets, every day. You had a choice of any number of desserts. We really looked forward to them."

ACTING ISN'T entirely new to Acalanes' tough instructor, who walked barefoot on tacks during the shooting without wincing, thereby disappointing the director. (He was supposed to wince.)

"I performed in some church productions as a youngster, but was in several operettas during my university years."

Busch quit school at 12, entered Brigham Young University as a probation student without high school diploma.

He graduated with a music major and English minor, and collected his masters degree in music from the University of Oregon.

Freeway Threatens High School?

Does the proposed Shepherd Canyon Freeway pose a future threat to Miramonte High School?

Holland DuBois of 51 Estabueno, Orinda, this week told the board of supervisors that the Oakland-St. Mary's College portion of the freeway includes a "maximum length of steep grade which ends adjacent to the high school."

He compared the developing situation to the existing one where the Cummings Skyway ends on a steep grade in front of John Swett High School, Crockett. A fuel truck recently went out of control on the steep hill and smashed into the school, killing the driver.

Waldie Speaker

Assemblyman Jerome Waldie of the Tenth District was featured speaker at the regular luncheon meeting of the Orinda Chamber of Commerce in the Casa Orinda Tuesday.

He discussed legislation considered during last year's meeting of the legislature, which was Waldie's rookie term as a representative of the area.

James R. Lucas, president of the chamber, conducted the meeting, which did not include a business session.

Public Meeting Is Scheduled In Sleepy Hollow

Proponents of the Sleepy Hollow incorporation proposal have tentatively scheduled a rally-type public meeting on the incorporation issue for the night of September 30.

Fred Rust, spokesman for the group, said yesterday the date is extremely tentative, but "we want to get this meeting set and we're shooting for September 30."

MEANWHILE THE incorporation petitions, filed two weeks ago today, have been certified by the county assessor's office, which reported 237 signatures of property owners were on the petitions —far more than the 25 per cent of the 720 owners required.

But the board of supervisors stated that the public hearing for protests to the incorporation will not be called until after the proponents have filed their fee for publishing notices.

Rust said he learned the fee must be in by September 29, but that his group is attempting to take care of the matter before that date.

FINALIZING PLANS for the annual barbecue of the Orinda Lions Club, to be held tomorrow at Lafayette's Wildwood Acres, are Mario Albo (left), general chairman of the event, and Max Dolio, who is in charge of refreshments. —Sun photo by Mattson.

On The Lighter Side

If you didn't know already, here is some happy news! The Blakesleys (Larry and Alma) have moved their Lafayette furniture and decorating establishment to another location—3654 Mt. Diablo Boulevard across from the Louis Store—and have been busy as bees these last weeks landscaping and "re-doing."

You will be impressed when you see the very lovely hand-picked items, the exceptional gifts, as well as the beautiful furniture they have to offer.

You will also find it interesting to meet their associate, Gerrit Munnik of Oakand, who is an antique and modern expert. He was Master of Arts at the Royal Academy at The Hague, Holland and a former director of the Fritz Van Alphen Studio in Amsterdam; affiliated with decorative art research in Far East and Near East in Europe, and consults in English, French, German and Dutch. It will be difficult to have language problems, or any other kind, here!

Cocktail Hour, Also Fashion Show

An "Evening Under the Stars" is the romantic theme for a cocktail hour and fashion show taking place at the Dollar Estate, Saranap, on September 26 to benefit the John Muir Memorial Hospital.

An orchestra will supply background music as modes display new and exciting ensembles furnished by Joseph Magnin. Tickets to this delightful affair are available through Mrs. Frederick Ackerman of Walnut Creek.

Combining their efforts in behalf of the Women's Auxiliary are Mesdames Harmon Howard, Alex Lindsay, Charles Hart, Edmund Barnett of Walnut Creek, Mrs. Mel Nielsen and Mrs. F. R. Preece of Lafayette, and Mrs. William Anderson of Alamo.

Chance to See Lovely Homes

The Lafayette Republican Women's Association have competed plans for the "Harvest Time House Tour" in Happy Valley on October 1. This is an annual event as you know, and is a chance of a lifetime to see some of the most beautiful homes in our area and if you don't want to miss out you wil have to hurry! Tickets are limited.

Mrs. Mel Nielsen, Mrs. William Freeman, president of the group, and Mrs. Lawton Shurtleff have gone "all out" to make the tour a success even to the point of taking a trip to Echo Lake to gather wood for arrangements to be displayed at the "lowland" home of Mrs. Freeman which will climax the tour and where refreshments will be served.

The "hilltop" homes opened for the occasion are those belonging to Dr. and Mrs. Rolland Brown, Mr. and Mrs. James Kilpatrick, Mr. James Dinwiddie, and Mr. and Mrs. Marion Plant. Tickets are $2 and may be obtained at The Treasure Trove in La Fiesta Square or contact Mrs. Freeman or Mrs. J. Gordon Holmes.

By the way, the Shurtleff family had a delightful time entertaining their guest, Dieter Baumann, an exchange student from Germany who stayed with them for a month. Dieter is living with a family in New York for one year, but had SUCH a desire to see California, arrangements were made for him to do so.

Laurels Plan Rome Autumn

I'm sure he returned to tell of many happy experiences here. The Laurel Juniors, a branch of the Children's Hospital, will hold their annual Fall Fashion show this year at the Claremont Hotel also on October 1, using as their theme, "Autumn in Rome."

H. Liebes' fashions will be modeled and as an added feature, TWA will show fashions and costumes from all over the world. Mrs. Thomas Crellin of Walnut Creek is chairman and Mrs. Perry Holmes, Lafayette, is coordinator. Make your reservations now with Mrs. Robert Teddy.

The Mary Doyle Unit of the Mt. Diablo Therapy Center have really gone ALL OUT! At the Danville Hotel, from October 1 'till October 11 you will have the opportunity to view 12 EXQUISITE rooms decorated by the following well known decorators in the Bay Area: Col. James S. Styles of Walnut Creek, K. H. Lengfeld, Frances Mihailoff and Lee Mohs of San Francisco, John Wheatman and a representative from Andreasen's, Oakland; Helen Wright of Berkeley, a representative from Down's Interiors and Eleanor Davis of Orinda and William Collingwood of Danville.

Champagne for Launching

Lovely "works of art" will also be exhibited by Walter and Margaret Keane and Gertrude Stockton. A preview party, naturally with champagne for proper launching, will be held on September 30 and for three days starting October 5 there will be fashions shown by Joseph Magnin during the lunch hour.

Tickets to "Diablo Decorama" may be obtained at the door, at Joseph Magnins, or call Mrs. E. A. McIntosh of Alamo or Mrs. John Keeling, Danville.

A pancake breakfast was held in the parking lot of the "friendly" Louis Store located at 1550 Hopkins Street at Monterey in Berkeley Saturday. The cooperation of Harold Holley of Lafayette, who is the district supervisor, made it possible for the West Berkeley Lions Club to hold the affair for their Youth Campership Fund.

Lions from our area who were there working fast and furiously along with the others, were Evert Hodges, chairman, and Harry Waldemer of Lafayette, Pierre Kenyon of Walnut Creek and Bill Danska of Orinda. This was the second "all you can eat for 50 cents" breakfast sponsored by the Louis Stores for this club's fund raising project and was even more successful this year than last.

Pancakes and sausages by the thousands rolled off the hot gridles—a "picnic" for the children and a TREAT for the mothers. One less meal to cook that day!

Chocolate Cake and Lemonade, Too

A group of loveyl young Lafayette girls met recently at the home of Sharon DeLancey, president of the Fantasia Branch of the Children's Home Society. Each girl brought their own sandwich but Sharon supplied dessert, a luscious chocolate cake, and lemonade.

Between bites and sips and "yak-yak," they made BIG plans for their future activities.

Attending were Diane Paulovic, Rosemarie Maccario, Karen Lien, Linda Anderson, Carol Felting, Judy Murphy, Charlene Amonette, Judy Bauer, Carolyn Morrill, Sue Bleiler and Sandy Barr.

The busy stock has kept the Robert Cooks of Walnut Creek at home, more or less confined, for Nora and Bob are celebrating the addition of a baby son who joins two sisters at home. Robbie, the newcomer, is bound to have on outdoorish future as father is an avid hunter and probably has great plans for this boy!

The James Moores of Lafayette have just returned from Tahoe with their two sons after a pleasant three weeks stay at their home at Elks Point.

Mr. and Mrs. Fred Seulberger and daughter Jane have left the beauties of Alpine Lake to return to norm and Lafayette. . . . Mrs. Will Hall and daughter Susan, who is "sweet sixteen" but worldy wise at this point, spent a glorious two months touring Europe and Mr. and Mrs. Bernard Rocca Jr., also of Lafayette, completed their exciting 'round the world voyage.

Jamboree in Philippines

Derrick Knudsen started by attending a Boy Scout Jamboree in the Philippines and ended his spree by circling the globe. Peter Knudsen, Derrick's brother, and Dick Wiseman enjoyed their stay with Mr. and Mrs. Robert O. Christensen and daughters Becky and Karen in Salt Lake City.

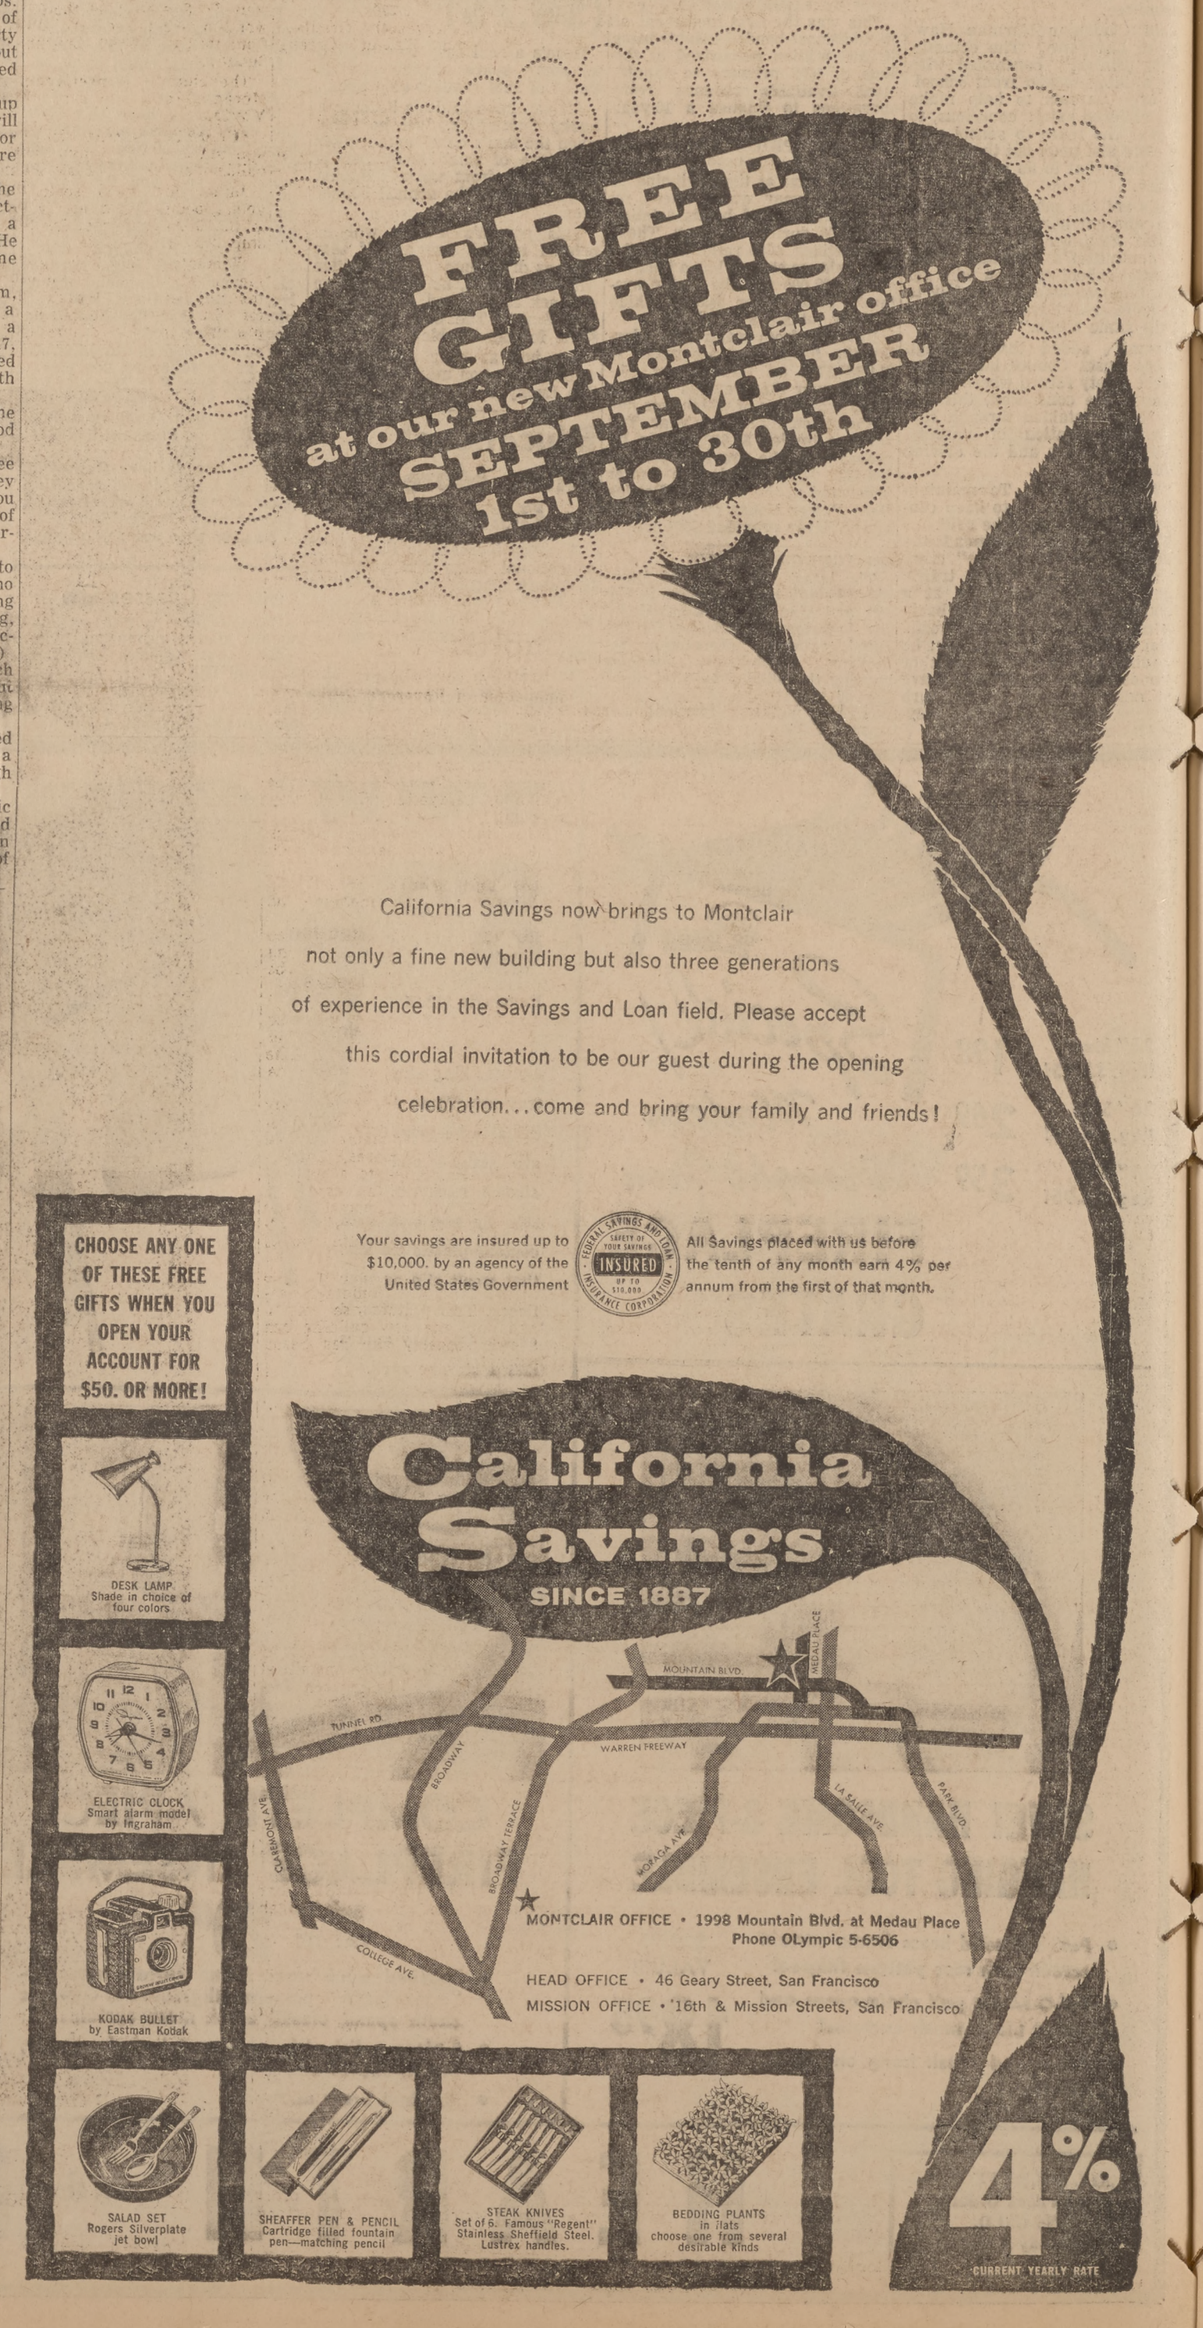

The Christensens in turn, visited Dr. and Mrs. J. Gordon Holmes of Happy Valley for the purpose of attending the wedding of Barbara June Ellis held at the lovely Holmes residence.

Concord residents Mr. and Mrs. Al Vasconi and son Peter are spending two months across the Atlantic (Europe and Tahoe seem to be favorite spots this season, but will make every effort to be back in time for the Viennese Dance given by the Robin Unit of the Mt. Diablo Therapy Center.

And Mr. and Mrs. Prosper Olivera and family are back from Dorington, Abbotts Pass, California, while Mr. and Mrs. M. F. Ohman and children Kandace and Carl returned after two weeks in South Dakota.

Mr. and Mrs. Joe Shockey, Patrick and Elizabeth, also from Concord, enjoyed the rugged Sierras at Packer Lake Lodge. Mr. and Mrs. Gi Young chose the beach at Santa Cruz for their "change of scenery."

Mrs. Sidney Lapham of Martinez and her sister-in-law, Mrs. Waldon Lapham and children, parked their trailer along side the golf course at Guerneville and spent fun packed days splashing in the good "ole" river.

Coach Has Talent To Teach Knights

By ERWIN MATTSON

Duane John Louis, who moved up from an assistant's post to head man of the Las Lomas varsity gridders, has some big shoes to fill, but on the basis of background and record, he can do the job.

George DeKlotz, who stepped down to an assistant's role after an impressive record at Las Lomas as head coach, wound up the job by winning the mythical pennant last year.

THE KNIGHTS were hit heavy by graduation and with few varsity experienced players on hand, their machine has a long haul ahead.

Louis is busy tuning the engine, and look for the Walnut Creek team to hit on all eight cylinders before the season is too far along.

Coach Louis prepped at nearby Alameda High, where he was a standout letterman, playing as a shortstop on the baseball nine and as a quarterback on the football eleven.

ON GRADUATION from Alameda, he entered Santa Clara University on a scholarship and played as a frosh and varsity quarterback. In varsity play, he was one of the coast's top quarterbacks.

The end of his collegiate career found him taking a tour of army service. Here he was a player-coach at Fort Sill, Oklahoma, and then coached at Fort Carson, Colorado. He was released from the service in 1955 with the rank of lieutenant.

He went to the San Francisco 49ers as a pro player and was involved in a trade with the Pittsburgh Steelers. Liking California, he chose to stay, obtained his release and went into coaching at Menlo Junior College.

IN 1956 he came to Pleasant Hill High as head frosh football coach and varsity backfield coach.

His stay was brief, however, as he moved on to Las Lomas in 1957, where he taught driver training and served as assistant varsity football coach and head junior varsity baseball mentor.

In 1958 he moved to head baseball coach, while serving as an assistant to DeKlotz, as they steered the Knights to the pigskin championship.

THIS YEAR—1959—he winds up as head football and baseball coach, which along with his driver training and physical education classes keeps him a busy young man.

A credit to the teaching profession, he is a ready and pleasant conversationalist with a ready smile and an even disposition—plus the quick and ready mind of a quarterback.

While at Santa Clara the football players had their headquarters at O'Conner Hospital in San Jose. One of the players arranged an introduction for Duane to a pert and pretty young nurse named Annette Bryant.

ONE DATE followed another, and they were married in 1953.

They have six children, with the latest arrival, Stephen, being born three weeks ago on the day Dad took over as head varsity football coach, so Duane really has a rooting section all his own.

Others in order of age are Karen 1, Gayle 2, Paul 3, Mike 4, and Debbie 5.

Duane and his wonderful family live at 1762 Glendale Street in Concord, where Pop keeps in shape by helping the family when he's not working on sports strategy.

There's a weekend comin'—you'll need extra milk. More milk for Dad—for the kids—for breakfast, lunches, snacks. Milk is high in protein. A powerhouse of energy. Order extra milk now for this weekend. EAST BAY PRODUCERS' MILK COUNCIL

Fall Planting of Lawns Follows Nature's Way

You can get an argument from seedsmen here and there, but just as many others will agree that fall is the best time to plant a lawn in California.

Those who argue the pros of it are fast to point out that nature herself scatters seed and plants her own grass in the fall.

THERE ARE ARGUMENTS to favor both fall and spring planting, however, and most members of the California Association of Nurserymen refuse to take sides

They point out that spring or fall, you'll know success in planting a lawn if you go about it right. So if you need a new lawn now, plant it.

Fall planting is especially effective along the coast since there is little danger from early cold snaps to hold things back. And winter rains will soon take over to make watering chores less tedious.

VALLEY LAWNS should go in soon, to insure a good fast start before cold nights set in to curtail new growth.

Where time is not important the lawn seedbed can be turned over and sprinkled with a fumigant to kill weeds and weed seeds in the soil.

Your C.A.N. nurseryman can supply you with a compound that not only kills the weeds, it then converts to a nitrogen fertilizer.

THE PROCESS takes three weeks, and seed should not be sown before it is completed.

The single most important step in preparing a lawn seedbed is to incorporate enough humus material.

The gardener forgets that flower beds get an annual renewal of humus material (or should), but once you plant a lawn, it's mighty hard to dig new humus in.

WORK COPIOUS amounts of steer manure and peat and/or composted material into the soil. It's imposible to overdo this. so let your pocketbook be your guide.

And the most important step after planting is to spread a layer of peat and keep it moist.

Don't, even for a minute, let the seedbed dry out or new seedlings will wilt and die. Use a fine spray and use it often.

New Shoes, Perfect Team For Fall Season

Sturdy and sleek, low or high, men's shoes for fall 1959 are a happy combination of good looks with comfort.

This fashionable footwear, according to the American Institute of Men's and Boys' Wear, has been teamed with the new socks that come in trim, modestly patterned styles for business and dress-up wear, as well as boldly designed and snugly warm types for sports and casual wear.

FALL SHOES can be divided into two distinctive groups. Although in many instances, there is some overlapping, there are the traditional British-types that are the favorties of the ivy fans and the Italian-inspired continentals.

In the first group we find the classic plain toe bluchers, the wing-tip brougues and the sturdy moccasin pattern oxfords.

Sept. Is Time To Lighten Up Feeding of Roses

Here are some suggestions for gardeners this week:

Go light on rose feeding this month. Hold off entirely as October approaches. Too much food in September brings new growth at pruning time when you don't want it.

Spike compacted lawns to aid water penetration. You'll be surprised at how fast they green up afterward.

Disbud camellias that have set too many buds. Bigger blooms will result. The fewer buds, the bigger the bloom, so be your own judge.

Winter sweet peas should go in the ground without delay if you want their color for Christmas.

Hurry with winter bedding plants. They'll become spring bedding plants if you don't get them in soon.

Blind persons wishing to make use of the one-fare travel concesison, which enables them to take along a sighted companion for the cost of a single ticket on most railway and bus lines, can now obtain an ID card good for five years. They no longer have to obtain a new coupon book every year, according to the American Foundation for the Blind, which issues the coupon books.

Alta Bates Has Dinner Dance Event

The Alta Bates Volunteer Association's popular early fall event "The Poolside Jazz Party" was held Saturday at the Orinda home of Dr. and Mrs. Woodburn K. Lamb, 1 Oak Arbor Road.

Guests were asked to arrive at 4 o'clock for cocktails which were followed by a steak dinner served chuck wagon style in the spacious patio.

Entertainment for the affair included the traditional Dixieland tunes by a hand of local jazz musicians who have made several recordings, plus a quartet from the University of California Glee Club.

In addition the "Strolling Minstrels," a group of doctors from Alta Bates Hospital staff, performed. The group is headed by Dr. Forrest Horner.

General chairman for this year's affair is Mrs. E. Morse Blue of Piedmont. Preparations for the cocktail hour are in the hands of Mrs. William Picard of Lafayette. Dinner co-chairmen are Mrs. Robert Oakes and Mrs. Henry B. Zwerling.

Others assisting are Mrs. Forrest Horner and Mrs. A. A. Kragen, invitations; Mr. and Mrs. Walter Frederick, entertainment, and Mrs. Stuart Kierulf of Piedmont and Mrs. J. Gordon Holmes of Lafayette, publicity.

Orinda AAUW Has Fall Meet

International relations, art, and mass media were among the varied interest sections on the fall program for members of the Orinda Branch, American Association of University Women.

A coffee-registration was held Tuesday from 9:30 to 11:30 a.m. at the home of the president, Mrs. Philip D. Bush, 89 Meadow View Road, Orinda.

Section chairmen were on hand to discuss their activities for the coming year.

Glen Wardhaugh Promoted By American Trust

Glendon H. Wardhaug of Lafayette has been promoted by the American Trust Company, according to Vice President Kenneth Gelwix.

He will be trust officer and assistant secretary in the main office in Oakland.

A native of Canada, Wardhaugh joined the bank here in 1945 after serving in the Royal Canadian Air Force for three years.

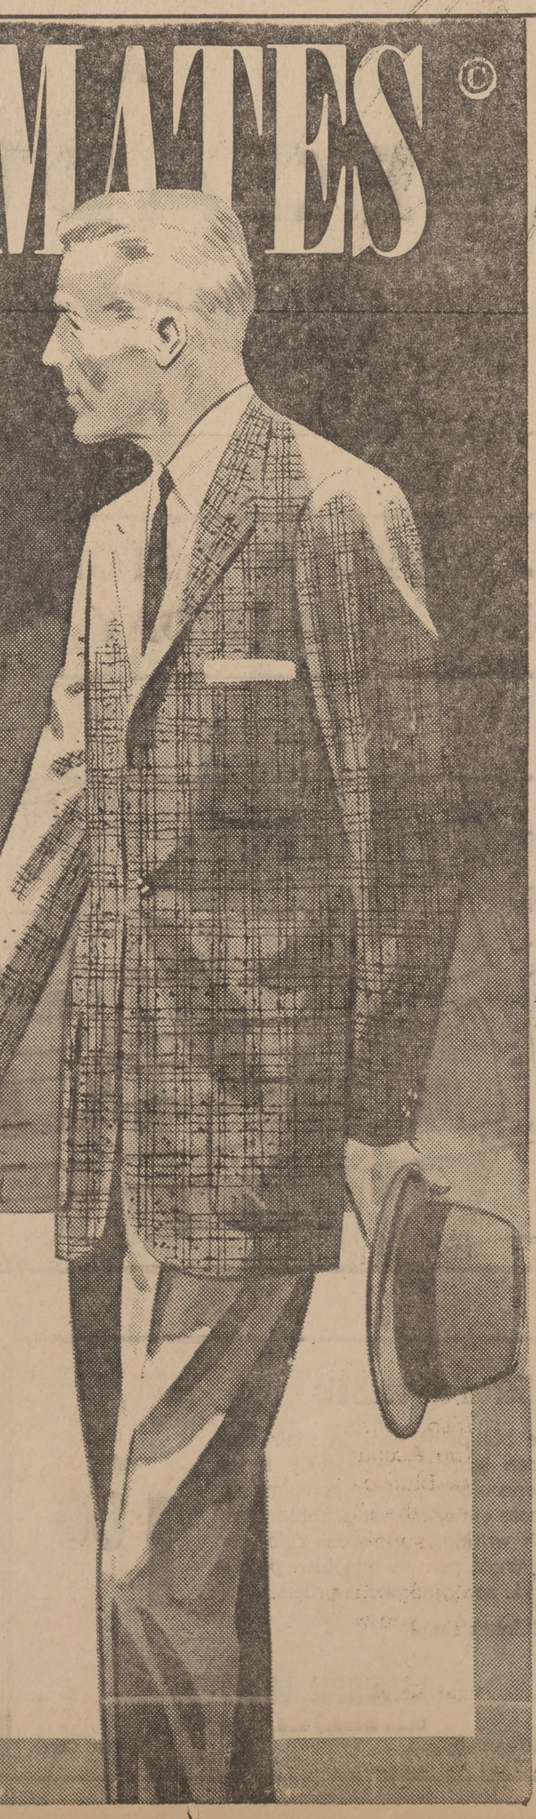

He was president of the Estate Council of the East Bay last year and is currently vice president of the United Cerebral Palsy Association of California.

The Wardhaughs live at 3260 Sweet Drive, Lafayete.

87 Will Teach at Diablo Valley College This Fall

Diablo Valley College, now beginning the tenth fall semester, will have a certificated staff of 87 for the full time students' program offered during the day.

College Director Karl O. Drexel said this will include 11 new teachers and two from Contra Costa College, San Pablo, who transferred this fall.

There will be three new positions in the area of communication and English to be filled by Willis D. Middleton, William J. Sparke, and Harvey Berman.

MIDDLETON has been teaching at Bakersfield Junior College and is a graduate of University of Missouri with an M.A. degree earned at University of California

Sparke earned the B.A. and M.A. degrees at San Francisco State College which he attended after eight years' experience as magazine editor, five of them on the New Liberty Magazine of Toronto, Canada.

Berman taught drama at Mt. Diablo High School for three years and will teach the college drama classes in addition to others in communication. He is a graduate of University of California at Los Angeles and holds an M.A. degree from San Francisco State College.

Two psycnology-counseling instructors new to the staff will be William J. Walsh and Stanley N. Yale.

WALSH, who has been teaching in the San Leandro Unified School District, has a B.S. degree from Connecticut Teachers College and an M.A. degree from University of California.

He will replace Mrs. Helen Lindgren who is on sabbatical leave to take additional graduate work in counseling.

Yale, who has travelled and studied in western Europe, holds a social studies diploma from Athens College, Greece, the B.A. degree from Michigan State University, and the M.A. degree from University of California.

Robert H. Duke, Jr. of Danville, who for the last four years has been on the engineering staff of California Research Corporation, will teach physical science and mathematics.

A GRADUATE of University of California with the B.S. degree, he is the second alumnus of the Contra Costa Junior College District to return after earning higher academic degrees to take a full time teaching assignment. Last fall the research group for whom he worked released him for a few weeks to allow him to substitute at Contra Costa College for Stuart Inglis, a physical science instructor on leave to take an International Geophysical Year assignment.

Another new position in the physical science area will be filled by Paul E. Yeager, former Monrovia teacher who earned the B.A. and M.A. degrees at San Jose State College.

A new teaching position in the humanities will be filled by Robert G. Neustadt who has been attending University of California for advanced studies. He already has the B.A. degree and has attended U.C. School of Law.

KENNETH C. Skeen, a mathematics instructor at Contra Costa College for the last seven years will teach the same subject this fall at Diablo Valley College. A former vice principal of Taft Junior College, he holds the B.S. and M.S. degrees from Kansas State College and has taken additional post-master's work.

He is an author of mathematics textbooks including a new one which will be published this year.

Another transfer from the sister college at San Pablo will be Arthur G. Mainini who will fill a new position as assistant dean of instruction in charge of trade and technical education.

A journeyman electrician, he had 12 years experience as construction, maintenance and marine electrician before becoming an instructor.

FRIEDRICH W. Herrman is a former U.S. Army Language School instructor at Monterey, who took undergraduate work at the Universities of Leipzig and Erlangen, Germany before graduating from the University of Iowa. He will teach foreign languages. He also earned the M.A. degree at San Jose State College.

Two physical education teachers, Sam John DeVito and John I. Carhart who were announced as new staff members earlier this year, will be on full time duty this fall.

DeVito took over the duties of Jack Danilovich as head football coach and physical education instructor when Danilovich took a less rigorous post as college job placement counselor upon the advice of his doctor.

DeVito earned the B.A. and M.A. degrees at San Francisco State College. Jack Carhart, the new assistant football coach, went on to Stanford for the M.A. College with the B.A. degree and

Hair Stylist To Show Flair At Capwell's

David Connelle, famed New York hair stylist will make a one-week appearance at Capwell's-Walnut Creek Beauty Salon starting September 28 through October 3.

He will be on hand to advise visitors to the beauty salon on the season's coiffure most becoming to them. His theory is that because each woman is an individual, her hair style should be individually chosen to enhance her best features.

Connelle, who is touring the country with his latest collection of hair creations, is known as "the genius who treats hair-styling like a fine art."

Walnut Creek area residents are invited to consult with Connelle during his special appearance at Capwell's-Walnut Creek, according to John Tague, manager.

The county department of Farm Bureau Young People judged to have performed the most outstanding service during 1959 will be honored with an award during the annual convention of the California Farm Bureau Federation in Los Angeles in November. County organizations are now in the process of compiling the necessary information for the judges, and entry forms have been sent out by Eldon Hinson, of Atascadero, chairman of the State Projects Committee.

Broadway Stores Open Two Nights

Stores in the Broadway Shopping Center are open Monday and Friday nights, according to George Webster, chairman of the Broadway Merchants Association.

"Broadway merchants remain open until nine on both nights during the week, so that shopping is made even easier for residents," Webster added.

"Stores, during the Broadway Back to School celebration, will be open six days a week, including Monday and Friday nights.

School Site Survey $500 Is a 'Foot in the Door'

"We've got our foot in the door," Harry Morrison, executive director of the County Taxpayers Association said, commenting on the supervisors' budget allocation of $500 for a county-wide school site survey.

The survey, which may cost only about $15,000, will avoid the "coordination by rumor" system by which school districts learn where their neighbors will place schools at the boundaries, he said.

The $500 appropriation paves the way for a later transfer of funds to the survey from the unappropriated reserve, which grows larger as the fiscal years pass due to projects which don't jell, transfer of salaried employees and other reasons.

"THE UNAPPROPRIATED reserve often gets up to $1 million during the fiscal year," Morrison observed.

He added, "The supervisors made no promises, but this is the furthest the Association has gotten since we began to campaign for this four years ago."

An example of "coordination by rumor" he said, was the case several years ago where Acalanes High School District and Mt. Diablo Unified District were going to build high schools within a mile of each other in the Oak Park Boulevard-Geary Road area.

"They got wind of it, and Las Lomas was built at its present location," Morrison said.

THE FACT that the local districts have planning consultants does not necessarily mean that the schools in each district will be carefully located in relation to the schools in the next district, and only a county wide survey can bring the decided-upon locations into the County Master Plan, Morrison said.

And the tendency for trustees of each district to ignore the Master Plan, once passed, may be stopped by recent interpretations which say the county schools superintendent can veto the location of a school. That is, his approval is no longer just a formality, he continued.

A big step forward is that County Administrator J. P. O'Brien has looked with favor on the survey.

Original suggestions were to hire the services of the Stanford Research Institute, when the County Planning Department said it couldn't handle the job. Cost would be about $35,000.

BUT IF THE county merely hires a new planning department assistant, the cost will drop to about $15,000, Morrison said. Salary of the assistant would be about $7200 per year.

Another difficulty where small districts could not afford to buy school future sites even with a master plan is being tackled by those seeking state loans from the state revolving fund, with provision for re-payment.

Morrison admitted that there are some provisions for coordination in most of the local districts. But this does not answer the need for a county-wide survey, he said.

Tax Assessor Staff Upped For Property Evaluation

The board of supervisors authorized the hiring of 23 extra employees in the assessor's office recently. The addition is to speed up Contra Costa's property tax equalization program.

The new workers, principally appraisers, are to be assigned to the heavily populated western section of the county at an annual cost of $150,000.

County Administrator J. P. McBrien recommended the hiring, stating that the reevaluation survey throughout the county would not be completed until 1967 at the present rate of progress.

He predicted that the job would be done three years earlier upon approval of the hiring.

McBrien warned the board that unless the speedup is achieved "it is conceivable that the county may be subject again to an across the board valuation increase" order from the State Board of Equalization.

The state issued a mandatory 35 per cent increase of property valuations three years ago.

Supervisor Thomas Coll of Concord said that the additional personnel "will more than pay for themselves" through increased assessments.

Right of Vehicle Department to Pull Drunk Driver's Licenses Faces Test

The Department of Motor Vehicles and a Diablo resident will clash head on in court September 21 over the department's recently instituted policy of pulling drivers' licenses for six months on convictions for drunk driving.

Harold Turner of the Walnut Creek law firm of Ring, Turner and Ring will represent George H. Sauer, a contractor, before Judge Homer Patterson in Contra Costa Superior Court.

Named as defendant in the case is Robert McCarthy, director of the DMV and the man who put the new policy into practice over the Fourth of July holidays.

In effect, Turner and Sauer will be speaking for thousands of motorists throughout the state who have had their driving rights taken away by the state.

Turner said he is not fighting the department of motor vehicles on the constitutionality of whether they may take drivers licenses, but rather their right to do so under present statutes.

In a crackdown begun July 1, the Department of Motor Vehicles has automatically taken up the license of a drunk driver for at least six months, even on the first conviction as in Sauer's case.

Superior Judge Norman A. Gregg ordered DMV Director McCarthy to show cause why Sauer's license should not be reinstated.

Sauer also sued McCarthy and the department for $16 a day for employment of a chauffeur since the state's suspension went into effect August 14.

In Sacramento, Tom M. Bright, deputy director of the DMV, said he has extensive legal opinions upholding the department's right to take action under a 1935 section of the Vehicle Code.

Turner contends the section does not apply after the courts have taken action under either of two other sections of the code.

Governor Edmund G. Brown said he plans to continue the crackdown policy until stopped by the courts.

Up from 1956's $33,593 Cancer Drive's $125,000

An annual report to directors and to American Cancer Society leaders from Contra Costa County will be made today at Villa San Ramon.

The society's books closed August 31 for the fiscal year with a total of $125,000 available through the 1959 Cancer Crusade and memorial gifts, to support next year's program of research, public education and day-to-day service to patients.

This week's report indicated the society has accomplished a considerable reduction in the cost of fund-raising while at the same time upping income received.

For example, in this just-concluded fiscal year, with a total income of $125,000, fund-raising costs dropped to 3.1 per cent, leaving more funds actually available to vital programs, the report said.

This compares favorably to 1956, when the local society's total income was $33,593 collected at a cost of nine per cent.

Dr. Frederick A. Pellegrin, county president, said today this was accomplished through increased economy of operation, experience, and "the incalculable value of our many volunteers throughout the county."

Dr. Pellegrin will report in detail on needs to be filled during the coming year as well as on this year's mission at the annual dinner, Wednesday.

The meeting will be open to the public but reservations must be made in advance through the society's headquarters at 2030 North Main Street, Walnut Creek.

Members Honored At Junior Chamber Breakfast Soon

The annual membership breakfast of the Pleasant Hill Junior Chamber of Commerce is to be held Saturday at the Oak Park Nut Bowl.

Representative John Baldwin and Supervisor Thomas Coll will be among those on hand to greet the new members and acquaint them with the purposes of the Chamber program.

The organization is a group of young men, all under 35, who are developing themselves and their community through social service, youth activities and civic improvement projects.

All those interested in attending the breakfast and learning more about the Jaycees are invited to call YE 5-5437 and talk to Al O'Neil, the president of the group.

No Nickel-Dime Affair, Pinballs Need Ordinance

We just don't have the manpower to check out all these things. . . .

This is an old, familiar tale from the sheriff's office, which has complained for years that lack of manpower doesn't enable the proper policing of some types of vice and criminal activity.

This was the same story that we all heard when Jim Long was sheriff—he didn't have the manpower to police the pinball situation in the county—but very shortly after the "pressure was on" he staged a raid and picked up a couple of multiple play pinball machines.

So checking every pinball machine is an intolerable situation as far as the sheriff's office is concerned? There is obviously only one sensible answer and that is an ordinance banning all pinball machines.

WITH SUCH AN ordinance in effect, you can pick up any pinball machine you see, legal or illegal, and your problem becomes negligible.

This is not a new story.

The 1953-54 Grand Jury's Law Enforcement Committee under the direction of O. J. Wohlgemuth asked that a county-wide pinball ordinance be passed.

Of course, nothing came of this.

Again in 1957 the Grand Jury, in its final report, asked for the same action.

And again, the Contra Costa County Board of Supervisors, who must pass such an ordinance, did nothing.

AT ONE TIME a committee was formed to "study the situation," but nothing was done. Several boards of supervisors have actually tabled the measure.

The last sheriff asked that an ordinance banning all pinball machines be passed, and the district attorney's office prepared such an ordinance, but the board of supervisors again dropped the ball.

This is not a matter of peanuts — a nickel here, a dime there. It is probably the most lucrative form of illegal income in Contra Costa County today.

The people of the county have a right to ask such an ordinance, and this is not an unprecedented request. Many cities have such an ordinance effective within their city limits, including Antioch, Concord, El Cerrito and others.

Such an ordinance should ban all pinballs in the unincorporated areas of the county—not just one kind, or one type, but all of them. Then the policing problem becomes simple. This is not an unfair request, and it is not "picking on one group." It is fair and has precedent.

THE PRESENT sheriff and district attorney should be glad to cooperate in the solution of this problem and present an ordinance to the board of supervisors for adoption.

But the action is up to the board of supervisors and the problem is ultimately theirs. The responsibility rests squarely on their shoulders.

Now is the time for action — action which will end a problem that has been a thorn in the county's side for years.

And only the board of supervisors can take that action.

And Age Is No Problem! Nor Service, Either

Planning on retiring soon?

Know anybody of retirement age?

If the answer to the first question is affirmative, you may find yourself much busier than you plan to be.

If the answer to the second is the same, you may have trouble keeping social dates with your friend because of a busy schedule—his or hers, as the case may be.

SENIOR CITIZEN organizations have recently received prominent national attention—and deservedly so—because of their phenomenal growth over the past few years.

And as usual, Central Contra Costa County is far ahead of the game. Senior citizens groups have been flourishing here for years — providing worthwhile tasks for the talents of the members. Most active of the organizations are the Lafayette Senior Recreation Center and the Senior citizens groups operated by the Walnut Creek Recreation Center and the Pleasant Hill Recreation Center.

An indication of the amount of community interest directed toward these groups is the fact that the Walnut Creek group is co-sponsored by the Walnut Creek Soroptomists.

THE MOST WONDERFUL thing about all these organizations is that they embody an idea whereby everybody gains and nobody loses.

First, the senior citizens themselves reap tremendous benefits. They gain the companionship of kindred souls, the pleasure of associating with friends and acquaintances with similar likes and problems, and pure recreation — something that is necessary no matter what your age.

Secondly, the community benefits tremendously. Here is a group of people which could be expected to be essentially non-productive as far as society is concerned.

But this as far from the case. These people have contributed bountifully to the communities in which they are active.

One example, which is typical of the work being done by all the organizations, is found in the projects of the Lafayette group.

THEY HAVE GIVEN assistance to needy families through the Christmas Bureau, repairing toys, dressing dolls and donating canned goods, and they have started the Eager Beaver Thrift Shop.

This shop not only makes the group self-supporting, but provides an income through which community projects may be supported.

Consider the fact that the AVERAGE age of the members of the Walnut Creek group is 65 years, and you see that this is a group of active senior citizens.

Our hat is off to these groups, their sponsors and their members. The community is proud and grateful to them!

Seen the Aspirin Bottle? Fishing Is More Fun

By DICK OSBORN

Very interesting phenomenon. Find that the typewriter still works as it did before vacation started.

Only now it works a lot slower. Find that fingers are still curled in shape of fishing rod, and do not extend to operating typewriter keys with former facility.

Find that sound of clear, cool trout stream echoes in ears to point that ringing telephone doesn't register until screams of anguished colleagues arouse old feelings of duty.

Returned from week in high Sierra country, spent delightfully with local doctor type friend and local dentist type friend. All of us found, to our dismay, that the community had gotten along very well indeed without us.

Mortifying state of affairs. Found that freeway construction has gone on apace without my sidewalk criticisms and aid. Don't like this at all. Figure that maybe they will replace me with another sidewalk superintendent.

FIND NEW DETOURS all over the place. Orinda is easier to get to and from, as is Lafayette. Walnut Creek construction is still confused. Look longingly at lovely stretch of beautiful white freeway heading toward Pleasant Hill and get temptation to take it anyway, heck, its' finished!

Contemplate fate of driver who tried that last New Year's and decide will wait for state to open the road.

Find that they have really delicious food and vegetables in our local markets. Never paid much attention to it before. Do you suppose that a week's diet of dehydrated foods has anything to do with it?

Just happened to notice that all the avocados are twice as large, green and soft as they were before vacation. All that crisp lettuce tastes wonderful, and the big red tomatoes are out of this world.

Found even more disturbing state of affairs. Sun Staffers Larry Glazier, Bob Rapida and Norm Colby put out a couple of the best issues of the paper we've had this year. Makes me feel unwashed and unwanted.

KNOW FOR SURE was unwashed when got back to good old Contra Costa County. May be wanted, but there is now serious doubt about being needed. Noted cold glint in eye of publisher that indicates he wonders what this bum is doing around here when three perfectly good staff members can do superlative job.

Think maybe he thinks am a hindrance instead of a help. There goes all the groundwork have been building up in employer's mind for lo these many years.

Find that Lions Club gets along without me fine. Everything has gone to pot.

In general, am just back from vacation. Vacation was wonderful. Find that recovering from same is terrible.

Didn't Ralph Waldo Emerson write something about compensation?

Anybody got an aspirin?

GOOD MARKS! Both in the classroom and on your bicycles. Vacation has ended and our youngsters have gone back to school. The young man marking his bike with reflector tape is one of many who will share the road with motor vehicles. He is making it easier for motorists to keep him safe. Let's all try to keep the roads safe for everybody.

Look Who's a Mother of (Dubious) Distinction

By MARIE MONAHAN

SCHOOL started off with a Bang, didn't it?

It is hard to tell who was more excited—Mother or Child!

It some cases it was Mother.

Consider the Concord Momma who leaped after her little one with the lunch bag in hand, sprinted down the driveway & spilled herself, splitting a lip & losing a front tooth.

A WALNUT CREEK friend of our Orinda neighbor was the first mother called from **HER** School to come & collect **HER** child—who lost two front teeth in the first-day fracas.

A LAFAYETTE Lady, who is an impeccable dresser, got a late start—so to get her children **THERE** on time, she threw a coat over her old flannel pajamas, stuck her feet in a pair of sticky sneakers & drove her 10 o'clock scholars to school.

She headed for home feeling **HEAVENLY** when the car jerked to a standstill. No Gas! Out in the middle of a strange neighborhood she sat & stewed till she got up enough nerve to beg to borrow the phone at the nearest house. But that mad-morning ensemble left its mark on her! Never again will she dress so frantically!

An Orinda School District lady bus driver fairly fainted away in one local medic's arms . . . Some smarty-pie had aimed a rock at a bee's nest & the bees swarmed the bus & the small screamy passengers. In spite of a scalp sting on her own noggin, Duty came first & the lady Bus Driver spent that first mad morning brushing yellowjackets from her young charges. Psychotically, she was suffering by the time SHE got First-Aid & a shot!

Well, it was **SOME** day, let me tell you!

We, too, met our Waterloo.

AS OUR YOUNGEST scooted to the bus stop, we started breathing normally again. We put a record on the hi-fi & a cake in the oven. When the cake was finished, we planned to trot to town to have some sassy shoes dyed shocking pink. Wicked!

ONE HOUR later the cake was out of the oven, our hand was on the housekey. Then the phone rang. It was the School Secretary calling.

"Mrs. Monahan—Congratulations! You have the distinction of being the First Mother called in an emergency."

Immediately the old heart churns full speed ahead. You know how it is! You imagine, Oh Gad! **HOW** you imagine!

WELL, nothing to get alarmed about, it seemed. During the first recess, the young boy fell off the play bars. He fell off & landed on his arm. The arm was moving, the boy was moving. He wanted his Mother. We moved!

This is the same boy, aged 8, who yells from the top of the 80 ft. PINE tree down the back hill, "Hey Look, Mom—No Hands!" The very same boy who has climbed cliffs, explored caves & walked one foot in front of the other, Tom Sawyer-style, over train trestles high above a river—when we weren't looking, of course!

NOW sat the same boy in the school office, his face white & tear-stained! Checking with the Doctor, X-rays showed a fracture of the elbow. Oh me, Oh my!

An eternity later, 3 hours, we were riding home smiling. With the new plaster cast ready for autographs, the young man felt like a Man of Distinction.

Just like his Mother!

"Woman of Distinction." Dubious Distinction. First Mother of the School Year. First Mother to face first catastrophe. You can't win!

FIRST MOTHER who has waited almost 3 months to get a pair of shoes dyed shocking pink. You can't win! No rest for the Wicked!

Letters to The Editor

HIGHWAY GRADES

(Editor's Note: The following is a copy of a letter which was sent to the Contra Costa County Board of Supervisors for reading at last Tuesday's meeting).

Dear Editor:

I have before me a clipping from the Oakland Tribune of September 2, 1959.

It describes your deliberations and your comments connected with passage of an ordinance to control trucks on the Cummings Skyway.

THE PROBLEM concerned was one of a steep downgrade into a populated area.

In referring to an accident on the road, Mr. Neilsen was quoted as saying: "If that truck had been loaded with propane, it would have blown Crockett right off the map."

In another quote, Chairman Buchanan said, "This is a road that never should have been built in the first place."

THE ABOVE QUOTED comments neatly sum up the problem. I have no doubt that you gentlemen have dealt the best you can with a problem having no perfect solution.

Now I would like to direct your attention to a parallel situation which is still in the planning stage.

That is the western leg of the Shepherd Canyon Freeway, from Oakland to St. Mary's College.

THE ROUTE approved by the State Highway Commission is the one having a maximum length of steep grade which ends adjacent to Miramonte High School, and in what will eventually be a densely built-up residential and business area.

That decision was made in spite of the fact that a perfectly feasible route is available which has practically no grade.

The result will be identical with the one you face with the Cummings Skyway, except that the Shepherd Canyon Freeway has not yet been built.

CAN YOU picture a propane truck plowing into Miramonte High School?

You can still do something about this problem before it arises.

I can not believe that there is anything divine or irrevocable about a decision of a State commission, especially when no action has been taken to implement that decision.

THIS IS OUR county and you are its supervisors.

You should now take steps to avoid a serious problem instead of waiting to try to cure it in later years.

In citing the difficulty with the Cummings Skyway, I do not mean to imply that this is a problem exclusive to our county.

THE RECORD of this kind of highway design is extensive.

For example, there is Dunsmuir through which numerous trucks have dashed out of control. You are all familiar with the grisly history of Highway 99 in Kern County. Another example is the Pacheco Pass road near Los Banos on which a truck recently got away and wrecked seven other cars. All were going in the same direction as the truck, incidentally.

Based on the thoughts expressed here, would you please do all in your power to straighten out this situation. Your efforts will be appreciated by thousands of people concerned.

HOLLAND DuBOIS

GREELEY SCHOOL?

Dear Editor:

I was glad to hear that no final decision was made in regard to the naming of the proposed grammar school on Quandt Road.

Although the world may have benefited much by the explorations of Sir Francis Drake, I believe we here owe much more to such men as Horace Greeley, whose words, "Go West, young man, go West," did much more to influence the building of the West.

THEREFORE, I would like to suggest Horace Greeley as the name for the future school.

And, finally, while on the subject of the Quandt neighborhood, I would like to suggest that the hill property that Mr. Quandt owned, and on which he planted and cared for so many trees, be preserved in his memory as a public park and picnic grounds.

BERNARD J. CASSIDY

GRATEFUL

Dear Editor:

We hear so much about the "not so nice" things our youngsters do that I want to draw attention to some of the nice things they do.

I was in trouble on the Contra Costa Highway early Monday morning when the ignition in my car failed. The police had radioed for a tow truck about two hours earlier and I was beginning to panic when a car with several boys stopped to inquire if they could help.

I asked them to phone my son in Walnut Creek but they could not get him and they took the trouble to come all the way back to try again to help me.

By that time the police came back to find out what the trouble was and radioed again for a tow truck which finally arrived.

I was too agitated by then to thank them properly or get their names so I'm hoping they see this and know I'm grateful.

Under The Sun

Sheriff Young, Please Answer These Questions

By HERMAN SILVERMAN

One month ago The Sun printed a list of questions as to contributions (or "pay offs") for vice and gambling in the county. The questions have not yet been answered.

At that time, we knew some of the answers. We knew some of the questions had been aired before the county grand jury and the state attorney general's office. We had many facts, rumors, reports of testimony, stories of withheld information, etc.

Our purpose in running the damning questions was to encourage the grand jury, attorney general and district attorney to carry the investigation to the very end. The grand jury did submit a strong report, blaming Sheriff Walter Young and his department for many things and demanding some action. They could have done more.

The investigation continues

Meanwhile, the attorney general's office announced it was continuing the investigation—primarily looking into contributions to the sheriff's campaign funds and related events. (Incidentally, the attorney general's office has done a poor job on the investigation. In fact, they've messed it up in many ways. But in their favor they were not willing to let it drop, as was done by our county people.)

To repeat: We knew most of the facts but did not want to print them for fear of obstructing justice. This may sound high and mighty, but frankly a good news story is not as important as cleaning up the county. The Sun is not a big city newspaper. We do not sell extra papers because of big stories.

Several weeks ago I talked to Assistant Attorney General Charles O'Brien and related the above facts. We would like to print the story but would not do so if it would harm their investigation. He asked us to hold off several weeks. A few days ago we asked him again. He said we could go ahead.

That is what you find on today's front pages and in this column.

Fact—not rumor:

In January Ray Van Tassell, the sheriff's campaign manager and executive director of the "County Improvement League," was given a list of the county's pinball machine companies by Sheriff Walter Young.

Van Tassell of Danville then collected about $900 from these operators. It is my understanding there was to be a monthly collection of $1150 from these operators. (See list in front section.)

What happened?

One of the operators, Mel Bond (former associate of Bill Pechart), complained he was being "shaken down," using the quotes of Undersheriff Harry Ramsay.

This, according to Ramsay, led to an argument between Van Tassell and Ramsay. "And after we exchanged words, I threw Van Tassell out of the office," the undersheriff told The Sun.

In a statement to The Sun, Young denies he told Van Tassell to solicit funds from the pinball operators but said he knew Van Tassell had the list.

Where did the "contributions" go? Sheriff Young says he did not receive a dollar. No one else is talking.

This is gambling

At this point, permit me to be nasty and report that pinball machines, both legal and illegal, have been operating like mad. Not only are illegal machines going, but pay offs to winners are being made over the counter. To my knowledge no real attempt had been made to stop this gambling.

In fact, it appears that tavern owners feel they won't be bothered. The heat of the gambling investigation certainly did not scare them. Current headlines in newspapers do not scare them

Let me illustrate a point. Four of our Sun staff members stopped off after work September 10 to have a drink at The Shillalah. The owner knows these people. Yet, he had no qualms whatsoever about paying off a pinball winner in their presence.

Perhaps the pinball machine operators and tavern owners are correct—our sheriff apparently is not going to do any thing about it.

Why?

Evidence piles up

An answer might come from last Tuesday's hearing in San Francisco in the attorney general's office. Here is some of the story from the San Francisco Chronicle:

"The pinball machine operators of Contra Costa county were asked to make up the deficit of Sheriff Walter Young's campaign last fall.

"This was disclosed by Assistant Attorney General Clarence Linn following three hours of questioning of Young's campaign manager, Raymond Van Tassell.

"Linn said Van Tassell told him the pitch to the county's pinball czars was made by the Contra Costa County Improvement League. . . ."

Who is responsible?

Remember, gambling is the sheriff's responsibility. But DA John Nejedly has the authority to step in—and has investigators.

Remember, too, that pinball gambling is a problem mostly in the unincorporated areas of the county. Some cities have outlawed them (Antioch, Concord, El Cerrito, etc.). In other cities, such as Walnut Creek, they are policed locally. Walnut Creek is clean.

Incidentally, the list of "contributions" made by the pinball operators in January is in the hands of the attorney general. I don't believe they were included in the records turned over to the grand jury by the County Improvement League.

Another question: What services did Van Tassell render for the sheriff from November, 1958 to May, 1959?

In April the League billed the sheriff $2500 for services by Van Tassell.

The sheriff apparently recognizes this debt for he gave Van Tassell a $50 check on account.

And yet the sheriff earlier has stated that his relationship with Van Tassell had ended at the conclusion of the campaign.

And a few more questions

Why was the County Improvement League formed? Who are its directors?

Why hasn't the sheriff acted upon the recommendations of the grand jury? And the supervisors?

Why did Francis Collins, former district attorney, and Barden Carlson, former sheriff's vice officer, call on Sheriff Young this Tuesday?

Why is the sheriff permitting pinball gambling to operate in the county? And Nejedly also?

Why doesn't the county prohibit pinball machines by ordinance?

These and a lot more questions should be answered.

Area Women Help Bazaar

County-to-county cooperation is the keynote in the launching of the second annual "Christmas Cargoes," the November 12 through 16 fun, fashions and food festival which features selected gifts from all nations.

Contra Costa County women are playing a large part in preparing for the event which will be held at Jack London Hall on Jack London Square and which benefits the Legal Aid Society of Alameda County.

In keeping with the international theme of the four-day show, Bob Sawyer of Lafayette has donated a quaint hurdy-gurdy from Barcelona, Spain to be one of the door prizes.

Also in keeping with its colorful all-nations format "Christmas Cargoes" on Saturday, November 14, will put on a childrens' parade with the boys and girls dressed in unusual provincial costumes from all over the world.

The march will be televised and carried on "Captain Satelite's" show seen on KTVU.

Thursday of last week committee chairmen and their assistants were taken on a tour of the nearly-completed Jack London Hall by its concessionaire, Ralph Goodman, "Christmas Cargoes" being the first large function to christen this sleek new building.

The tour was preceded by a luncheon at the Chandelier Restaurant on the square. Presiding was Mrs. John P. Crvarich, overall chairman for "Cargoes."

Righetti, Robert McKenzie, Burchard Styles, Samuel Wagener, Mel Nielsen, Don Laston, Frank T. Malley, John Lindburg, Norman Hinck, Robert T. Adams, Thomas Stack, C. Westington, Ralph Ligon, R. J. The agenda includes a recommendation to support state wide projects, a vote on the district philanthropy, reports from all district chairmen, with a full-report from Mrs. Norman Head, ways and means chairman.

Due to the resignation of Mrs. Kenneth Abshire of the Richmond Juniors as second vice president, there will be a special board of directors meeting to appoint a junior to fill the vacancy on the officers' staff.

During the month of September Junior Women's Clubs are holding open houses and any woman between the ages of 18 and 35 is invited to attend any of the junior meetings.

Local Store Offers Rapid Organ Course

A new rapid organ course for adults and teenagers will be offered at CITY MUSIC HOUSE, 1365 N. Main Street, Walnut Creek, it was announced today.

Plans for class organization will be discussed at 8 p.m. Friday evening and 11 a.m. Saturday morning at CITY MUSIC HOUSE.

This is the same quick organ instruction being given by many city adult schools, designed to teach you to play ballads, popular, swing music, waltzes and other light fare. If there is sufficient demand additional classes for afternoon as well as evening hours will be organized.

This is not a standard organ playing course and will not enable students to play classics. The method to be used designed and presented by a Chicago theatrical organist, Phyllis Walter, is believed to eliminate about ninety percent of the usual learning process and is aimed at adults and teenagers who have no formal musical background but want to learn to play the Electronic Organ for their own enjoyment.

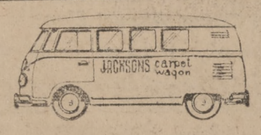

Students will be furnished with lesson material and free use of electronic organs.

The cost of these materials including tuition and instruction will be $10.00 for 10 lessons.

That Kitty With Stripe --Rabid?

That wild skunk killed after biting a dog on Clayton Road, Concord, was rabid, and is the fourth of the county's list since July 1.

Dr. John Baier, assistant health officer, said the others were found on Castle Hill Road, Walnut Creek, West Pittsburg and Port Chicago.

Several other animals suspected of rabies are still being tested in laboratories, as is the dog bitten by the skunk.

Dr. Baier said rabies is widespread in the wild skunk population and these rabid animals will fearlessly invade people's homes and yards.

Spread of rabies to other animals — especially domestic animals — and then to man is a constant threat which can be minimized by wild and stray animal control and dog vaccination for rabies, he added.

Contra Costa County has been officially declared a rabies endemic area. Present law requires licensing and rabies vaccination for all dogs over four months of age.

The sale, gift or exchange of pet or wild skunks in Contra Costa County is currently prohibited by a quarantine order issued by the Health Department on September 17, 1958.

Development Group Hears Company Man

The properties of liquified gases were demonstrated to directors of the Contra Costa Development Association Tuesday by Gilbert H. Meyer, assistant regional manager of Linde Air Products Company.

Meyer explained the operations of Linde's $5 million Pittsburg plant which went into production this year in the manufacture of liquid oxygen, nitrogen and argon, largely used as propellants for rockets and missiles. He has been with the Linde Company, a division of Union Carbide, for 32 years.

Welfare Council Seeks Members

The Contra Costa Community Welfare Council, an organization for individuals and groups dealing with mental health, welfare and recreation, is seeking the enrollment of new members.

Some of its achievements since its formation a year ago:

1. Maintained a calendar of events as a community service.
2. Studied existing day camps to see if they cover the need efficiently.
3. Prepared a directory of health and welfare services.
4. Surveyed the needs of senior citizens.
5. Determined the need for a family service agency.
6. Participated in a survey of the need for a visiting nurse service. This is now leading to the establishment of this service.
7. Assisted in developing criteria for admission to United Crusade. Three studies were done this year on applicant groups.
8. Joint sponsorship of a Juvenile Delinquency Prevention Workshop.
9. Developed and participated in Senior Citizens Planning Committee. Council office is at 1915 Parkside Avenue, Concord.

Radios to Tell United Crusade Story Weekly

"Crusade Storytellers" will be a series of actual case stories from United Crusade Agencies to be heard on six radio stations weekly, according to Hal C. Cheney, county Public Relations chairman.

Doug Pledger of KNBC tells real-life stories of people helped by some of the 263 United Bay Area Crusade Agencies.

"Crusade Storytellers" schedule for the five week period is as follows: KKIS, 10:15 Sundays; KRE, 8:45 a.m. Mondays; KSAN, 3 p.m. Tuesdays; KTIM, 2:30 p.m. Fridays; KCBS and KNBC to be announced.

Pledger and KNBC announcer Clarence Leisure will announce through the American Federation of Television and Radio Artists. Stations KNBC and KCBS lent their production facilities, and, with the other participating stations, will run the series as a public service.

MT. DIABLO THERAPY CENTER membership drive is underway as John E. McKirahan, president and Mrs. Donald Krotz, treasurer, post 60,000 appeals with Postmaster J. F. DeRosa.

Police School Opens Mon.

The twenty-second session of Northern California's Peace Officer School, operated by Diablo Valley College and cooperating city, county and state agencies, will begin Monday in the Concord Police Association Academy.

Classes will be in session for five weeks, according to Charles E. Grant, school director and police training coordinator for the Contra Costa Junior College District.

ADMISSION WILL be restricted to duly apointed peace officers, other regulatory and security officers, and selected personnel from official agencies. Between 50 and 60 are expected.

During the five-week session students will undergo a concentrated 200 hours of study to earn 10 units of college credit.

Fourteen hours will be spent in examinations. The school day will start with 6:30 a.m. reveille and close at 10:30 p.m. with lights out.

Tuition will be free, but students will defray their own living costs, the men occupying dormitory quarters and women students arranging for separate housing in local motels.

Volunteer Bureau Names Salmon To Head Post

Mrs. Robert W. Salmon was recently appointed to the position of executive director of the Volunteer Bureau of Contra Costa County, a non-profit service organization financed by the United Crusade and the Oakland Junior League.

Mrs. Salmon was previously employed as unit coordinator for the Alameda County branch of the American Cancer Society. Other employment includes coordinator for operation rehabilitation for Contra Costa County.

In the fields of volunteer work and community organizations, Mrs. Salmon has served as executive committee members, second vice president, and chairman of group work and recreation in the west Contra Costa Community Welfare Council.

She has been second vice president of the Bay Area Welfare Planning Federation and president of the Richmond YWCA.

In a letter to Volunteer Bureau members, the bureau also expressed their gratitude to Mrs. Arnold Schultz who has served as acting director following the resignation of former executive director, Mrs. George Planz, in June, until the recent appointment of Mrs. Robert Salmon as the new executive director.

Wheel Toys Are Needed Now for Christmas Bureau

The Christmas Bureau needs help now in planning for a happier Christmas for needy families in our community.

The bureau, which is sponsored by the Volunteer Bureau of Walnut Creek, was organized 10 years ago to avoid duplication in Christmas giving.

THE BUREAU WORKS closely with the county welfare department, American Red Cross and churches and schools to discover needs, certify worthiness of recipients and act as a clearing house for charity projects during the Christmas season.

"Our immediate need is for repairable wheel toys," according to Mrs. James Morris of Lafayette, this year's chairman.

"The Senior Citizens of Lafayette have volunteered again to paint and refurbish used wheel goods, the men are waiting now for toys to repair," Mrs. Morris said.

FARMS

Robert E. Hanley, legislative representative of the California Farm Bureau Federation, calls attention to a series of hearings relating to transportation of farm employees and material, to be held by the State Division of Industrial Safety. Public hearings are scheduled for Chico on Tuesday, October 13; Fresno, Tuesday, October 27, and Imperial on Friday, November 13. Written comments received in the Division's office prior to the hearing will be given the same consideration as those presented in person, Hanley reported.

Prep Gridsters Clash Today

DVAL's Foothill, Contra Costa Grudge Battles Start in Openers

By ERWIN MATTSON

The Contra Costa preps — along with the rest of Northern California — open their 1959 football season on the varsity level today.

The junior varsity teams really took the first jump as they moved into competitive action yesterday afternoon, with clubs playing at opposite fields from where the varsities play tonight.

COACH BOB Brooks over Miramonte way has been holding contact work to a minimum as his squad is at an time low of 23 performers.

As Caoch Brooks put it, his first eleven has adequate size particularly up front, but runs small in the backfield.

Reserve depth is lacking and could become a serious problem —it certainly is the biggest one at present, along with a lack of adequate speed, particularly on the defensive secondary.

THE TEAM has been slow to come around, but it's game time and that means Clayton Valley at 3:30 o'clock this afternoon at the Miramonte field.

The Clayton Valley Eagles have all of last year's players back because this is their first senior class. The school started last year as a three-year facility.

As a matter of record, they have 21 seniors back for the second year of play and a good number of newcomers.

THE MIRAMONTE lineup, as announced early in the week, is: Le, Corbett Kroll (175); lt, Buddy Boeger (190); lg Jack Putnam (175); c, John Rinne (175); rg, Mason Fries (175); rt, Jim Botto (210); re, Paul Pfeifer (175); qb, Randy Thaman (145); lh, Bruce Hancock (170); rh, Steve Abbott (135); and fb, Charles Blue (155).

Clayton Valley will line up this way: Le, Dave Dougan; lt, Austin Deaton; lg, Jim Borelli; c, John Rubiales; rg, John Bowerbank; rt, Stan Forsstrom; re, Jim Henderson; qb, Gary Loveridge; lh, Archie Morgan; rh, Rich Zavala; and fb, Ron Gress.

Pleasant Hill plays at home when they host the highly-rated San Ramon eleven.

PLEASANT HILL, a member of the Contra Costa Division of the Diablo Valley Athletic League, is picked by many to win it all.

San Ramon, on the other hand, is picked as a co-choice along with Piedmont in the Foothill Division.

Both coaches, Marvin Ashby of San Ramon and Hal Briggs of Pleasant Hill, report their charges in top shape and ready to go.

EACH BOASTS a number of veterans—in fact, San Ramon has an all-letterman starting eleven. Both have heft up front and each has adequate speed to be a winner.

Bruce Weiss, right half for San Ramon, is a top sprinter, as is Tommy Webb for the Rams. Roger Foulk, at 194 pounds, is rated by Coach Briggs as his best fullback ever.

Here are the lineups for today's fracas:

FOR SAN Ramon: Le, Brian Hansen; lt, Bob Roberts; lg, Mike Furlong; c, Milt Blake; rg, Mel Deardorff; rt, John Schwammell; re, Dave Graves; qb, Casey Evans; lh, Bill Humphrey; rh, Weiss; and fb, Don Van Wald.

Pleasant Hill: Le, Dan O'Brien; lt, Mike Ryan, lg, George Burns; c, Mike Erickson; rg, Jim Hinds; rt, Walt Dathe; re, Dick Dole; qb, Jim Maples; lh, Dave Shepherd; rh, Webb; and fb, Faulk.

Acalanes plays Alhambra High at Acalanes Memorial Field, and with both teams having a minimum of veterans on hand, it could be a good even ball game.

COACH JIM Coulter of Alhambra had his best eleven last year, but has a lot of rebuilding to do as graduation hit hard.

The Dons have four lettermen on hand in left guard Lou Cosso, center Jeff Picard, right tackle Denny Toll and fullback Jim Holden.

Rounding out the starting Acalanes crew are le, Bob Lockey; lt, Jeff Anderson; rg, Chet Threlfall; re, Thornton Smith; qb, Don Nelson; lh, Chris Rinne; and rh, Stu Fox.

RINNE, a speed burner, has looked good in practice and if the lne can sprin ghim clear the Dons could go for heavy yardage.

Coach Bob Muenter of Piedmont burbles enthusiastically over this year's squad as one that is particularly effective on defense, spearheaded by linebacker George Conn, a 213-pound junior who was an all-league choice in 1958.

Piedmont had an intersquad game last Friday night, with the junior varsity and varsity going full tilt to the tune of 16 touchdowns.

THE CLUB HAS has size—the biggest in Coach Muenter's 12 years of play. The problem to date has been the aerial game, a usually strong, but it figures to department in which Piedmont is come around well before league play which starts the second week in October.

Piedmont's lineup for Fremont, with whom they open this afternoon, is a sfollows: Le, Russ Leavitt; lt, Hughes Crumpler; lg, John McDonald; c, Kenny White; rg, George Conn; rt, Ken Ambrose; re, Mike Miller; qb, Rod Church; lh, Pete Jacobs; rh, Doug McVean; and fb, Bobby Jones.

The unit figures to go both ways with the only change, at least early in th egame, being Al Carlton for Rod Church in the signal-calling post. Ken White goes to a linebacker's spot on defense and sah shown to advantage in the location.

LAS LOMAS HIGH may be down, but is far from out at this point.

New head coach Duane Louis has his problems ,thanks to graduation and the resulting host of niexperienced players, as far as varsity play is concerned.

The Knights play Oakland High in a game tonight under the Las Lomas lights, and it is pretty much what the club and coaches deen at this stage of the game, and a good all-out effort. The

THE TEAM HAS good hustle size is adequate and chances are this is a club that will come along steadily as the season progresess.

Coach Louis lists 12 tentative starters, with three halfbacks in Tom Broatch, Jim Sisler and Steve Bowen battling it out for the two starting positions.

Other probable starters are: la Harold Rogers; c, John Reschert; Rick Miles; lt, Al Lazzareschi; lg, rg, Steve White; rt, Burke Burright; re, Pete Havens; qb, Doug Martin, who arrived as a transfer from Oklahoma; and fb, Mike Hair.

BEGINNING OF FOOTBALL

Football was strictly a game for kicks until 1823. A player at Rugby, England, disgusted with his ineffective kicks at the ball, finally picked it up and ran with it. Carrying the ball became an accepted practice — except for those purists who refused to use their hands. They called their game "association football" to distinguish it from the other, which became known as rugby. Association football was later abbreviated to assoc. . . . and then changed to soccer.

GUIDE DOGS were about the only items which were not provided at the DVAL Referees' Clinic Saturday at Las Lomas. Left to right, Hal Oxsen looks on as Hal Buffa, league commissioner, hands "official glasses (tri-focal)" to Carl Kitchen as Bob Hagler provides the big grin as he readies to sign up for "pop-bottle protection" insurance. All teams in the DVAL open today or tonight. —Sun photo by Mattson.

Scotty Russel Talks Golf

Busy Week for Pro Golfers Pending at Harding Links

By NEIL N. RUSSELL

Monday will begin a week long championship tournament. For the first time in many a day the biggest names in tournament golf will be on hand at Harding Park golf course.

It always does the golfer good to see these stars in action. Do you know why? It brings out his inner ambitions to improve his lot, and for a few days after their visit, he gets down to practice, serious practice, but without the help of someone trained in the teaching end.

HE TRIES to recall in his mind's eye, and tries hard to reproduce what he saw his favorites do.

This is a wonderful experience, and in every instance should direct these wonderful people to learn through fundamental knowledge, rather than to try their luck recalling what their eyes caught. The average self-taught golfer turns out to be a very poor golfer.

This is what these championship tournaments instill in everyone who witnesses the big names in action. It is a wonderful thing for the game as a whole.

The variety of golf stories can be classed as almost without any ending. There is one I like very much, for it tells its own story vividly.

TWO GOLFERS starting out for a round of golf were attracted by another gentleman who asked if he could join them as he was alone. Why certainly, happy to have you join. As the two had already sent their balls down the fairway, they waited for their new companion to drive. They thought it funny that their new found friend had no clubs, but said nothing, and let him go through the moves of teeing his ball up, take his stance, waggle a few times and then let go with a mighty swing, beautiful to watch, yet without golf clubs.

Well, this went along for a few holes, and after seeing how well he was doing, (that is) mentally, for he had birdied the first three holes, but on the fourth his second shot caught the big deep trap to the left of the green, and caused him to take a bogey.

Going to the fifth tee, their curiosity got the better of them, so they asked him, why no clubs? you cannot play golf without equipment, yet here you are telling me to put down on the card birdie scores, all you have done up to now is go through the movements, without a ball. What is the answer?

Every time I use golf clubs to play golf, my score soars to over 100. When I go out without them, and use my imagination of what I feel I am capable of doing, I always play down to par, and of course the satisfaction is a great stimulant, try it sometime.

They wanted no more of this kind of golfing companion. The moral of this story should sink into many players who play for fun, from what they do every time they go golfing, they would be better off using their imagination, but there again, they might be picked up.

HERE IS a typical story of HOW students soon forget, and hardly ever let their instructor say anything.

This lady seeking the services of a well known teacher, elected to outline her troubles, and at the same time tell what she actually wanted to receive, but every time the teacher tried to enter her steady yapping, she was off on another bend.

She covered everything from her drinking habits, to what some other pro had told her to do: "He was a very definite sort of chap straight arm and all, you know that elementary stuff." She really did not care for him, he was too cock sure.

After one lesson, he made her so stiff all down the left side, that she had to walk out the bloody door sideways.

After much more listening, and not being permitted to ask a question of her, the teacher had to be rude and ask her about her swing, time is passing, and I must get to the next pupil. She took a few swings, rather swipes, and so the story goes, without an ending, except to state, the teacher must be strict enough to intervene, and give out with sound talk, for, he must be careful to inform such pupils never to say, that you are a pupil of mine. I have experienced this type person, perfectly harmless, talkative, like a broken record and the lessons go for naught.

Festival's 15th Race Shaping Up

Walnut Festival's 15th race, a combined 1.9 mile high school and 5.7 mile senior race over a 1.9 mile course will be run off at 9:30 a.m. September 27.

Mad Prof Makes Picks; (Sun Sports Staff Resigns)

By SOSS OPPLES

Old Soss Opples had his eyes checked and came up with new glasses, but somehow the crystal ball seems a bit hazy at this stage of the grid game.

A double dose of concentration brought up these results—could be wrong, but then, could be right too—so check and see:

ON THE prep side, it's San Ramon at Pleasant Hill either this afternoon or tonight, depending on whether or not the transformers can be installed. The crystal ball sez they will. This is a toughie, but it's a home game for the Rams—the first varsity tilt on their own field, so it's out on a long limb. **Rams 27, Wolves 20.**

Alhambra at Acalanes, 8 p.m. Another interleaguer — Eastbay vs. Foothill. The Dons to have trouble with Alhambra's single wing. This one is **Acalanes 13, Alhambra 12.**

Piedmont tries Fremont at Piedmont in a 3:30 p.m. game. The Piedmont clan won 31-0 last year—it's **40-7 this year.**

Las Lomas surprises as the Knights topple Oakland High, **20-19**, in an 8 p.m. game at Walnut Creek.

Miramonte hosts Clayton Valley this afternoon at 3:30 o'clock. A Miramonte eleven will hold up the first half, but lack of reserves will wear them down. It's the Eagles from **Clayton Valley, 28-6.**

Collegiate ball opens play tomorrow, so try these for size:

CALIFORNIA plays at Washington State, where they have always had trouble. Cal has picked up some surprising top transfers and are better than normally expected. **It's the Bears, 21-14.**

Stanford hosts Oregon, and it's a **draw, 13-13,** while Southern California, loaded and aiming for a national standing, travels to Oregon State to roll to a **30-7 win.**

College of the Pacific takes on Colorado State in a night game at Stockton and is off to a flying start with an impressive **26-0** win.

SAN JOSE, playing at Denver in another night tilt, comes up with a **27-7** victory, while **UCLA drops a 13-6** decision to Purdue.

Washington, at Colorado, rolls to a **28-6** win over the hosts.

The 49ers play this week with the New York Giants providing the opposition and it proves to be an upset for the local eleven, who need it after last week's Ram debacle. **The 49ers, 32-21.**

It Used to Be Kick the Skull, Now It's Football

Cheering coeds and klieg lights have brought football a long way from the days when the English stubbed their toes kicking around the skull of a Dane.

That's one theory of how the game started.

The Danes occupied England from 1016 to 1042. A few years after they left, some workmen digging in an old battlefield uncovered a Danish skull and started kicking it back and forth. Several boys who had been watching dug up another skull and soon everybody was "kicking the Dane's head."

Eventually the players were ordered to play in some vacant area or give up the sport. The teams retired to a field marked off with boundaries similar to those of a soccer field. And the towns—and football—were saved.

Time Needed! Volunteers Sought for Handicapped

By DORRIS DALY

What is the one commodity more valuable than the much sought-after American dollar? . . . It is the same commodity that the evasive silver piece cannot buy: Time.

Some of us are growing impervious to the "Call for the Cause" as more of our dollars are being asked for and received each year by a growing number of charitable organizations that do many wonderful things.

These groups have an antenna of representatives that organize projects and collect funds for their productive work and are well advertised.

THERE IS, however, a group in Contra Costa County that does not ask for and does not anticipate any outside help. They have no representatives and no club nor organization sponsors them.

They don't ring your doorbell nor interrupt your coffee-break . . . they can't . . . they are the residents of Ward G in the County Hospital in Martinez. They are stroke victims, paraplegics and quadraplegics. All are receiving therapy and all have one thing in common: Time! . . . too much of it.

Mrs. Lisle Niswande, head nurse, and Mrs. Clara Bright, head therapist, with the cooperation of those under them, work together in the rehabilitation work done for those in the therapy ward.

THEY NOT only complete full schedules, but spend many of their off hours giving holiday parties or transporting their patients to picnics, ball games and pools. They are generous but their generosity is not enough. They need help.

They need transportation for teenagers confined to beds and wheel chairs . . . football season has arrived . . . They need people willing to give time for support of diversional programs for older patients.

They need those of us who have time to help make the hours more interesting and diversified for the patients receiving speech, physical or occupational therapy.

YOUR contribution won't be tax-deductible (not that a check wouldn't be welcome), but if you, as a group or an individual can give your most valuable commodity, then donate your time to the young or old in Ward G in the Contra Costa County Hospital.

Much can be done through the Gray Ladies and much can be done for the teen-age boys by a helping masculine hand. Recruitments for your time are taken through the Volunteer Bureau at 2030 North Main Street in Walnut Creek, YEllowstone 4-0420.

Lillian Worzel with the Medical Social Service is in charge of procedures in this matter and can advise and guide in return for your donation of time.

Friendly Farms and Orchards

By PERSIS K. REED
AT 3-2405

Due to circumstances beyond our control, and for reasons too complicated to explain, and which wouldn't interest you anyway, the Lafayette Meadows Improvement Association "Back to School" summer dance will be held at Danny Van Allen's on Mt. Diablo Blvd. in the heart of Lafayette tomorrow night, September 19.

We will skip the swimming interlude scheduled for Meadowbrook and will start right off with recess at 7:30, which is as school shall be—snack time, lunch hour, in other words, the **FOOD** will be served at 8:30, and then recess and dancing will be in order. See you there!

THE LINSLEYS of Willow Drive are home again after a two month absence.

They were at the Southwestern Research Station of the American Museum of Natural History in Arizona, collecting insects professionally, and rocks personally for garden effects, jewelry, etc.

The station is located in Cave Creek Canyon at an altitude of 5200 feet in an area with lots of springs, so although the desert is dry a 30 minute drop, they were surrounded with trees, and the climate was very much like Tahoe.

THEIR ROUTE there was not exactly direct — starting at Truckee where they saw the beginning of one of the biggest forest fires this summer, on to Denver where they visited daughter Joan, her husband, and baby—then meandered through Texas and New Mexico before arriving at Portal, Arizona.

On the way home, they stopped at Riverside and saw Joan and family again whom the Air Force had transferred in the meantime, and saw son, Jim, in Long Beach, and home again.

Since Martha Corkadel was born on Anita Court five years ago, there hasn't been another new little girl until last week, and Laurie Celeste Gladstone put in her appearance on September 4.

SHE WEIGHED 6 lbs., 15 ozs., was born at Peralta Hospital, and is the pride and joy of Devra and Hap Gladstone.

Two new birthday parties, and one old birthday.

The latter was in honor of Karen Greenwood who was six years old on August 6, and was celebrated in the patio of her home on Janet Lane.

THE TABLES were decorated with pink, blue, and yellow crepe paper and balloons to match—birthday cake, punch and ice cream balls made into clown heads were served to these little girls — Janice McAlister, Carol Rumford, Wendi Mattal, Heather Holmes, Sherri Armanino, Jeri Riddle, Eileen Mays, and Leslie Norden.

Ann Tollefson and Janice Repetto were ill so missed the fun.

Last week Diane Arena's 10th natal day, and she had a swim luncheon. Janice Repetto (over the mumps and well again), Lynn Peters, Janet Pritchard, Kissy Arena, Laurie Bailey were the guests.

COMING IN between at eight years old is Leslie "Salty" Norden, and she also had a swim party with birthday refreshments later.

Her guests were her cousins, Mike, Jeff, and Hugh Shannon, Karen Greenwood, Karen Andrews, Scotty and Lynn Peters, Diane Arena, Jan Repetto, Debbie Madison, Scott Vogel and Nancy Hughes—and big brother, Ricky, acted as lifeguard.

If you heard a familiar voice on KGO last Sunday speaking on rose culture, that was your neighbor, Ellen Leloy of Walnut Creek, and if you read the article on adult education in the Chronicle the Sunday before entitled "It All Started With John Swett and a Church Basement," you might like to know it was written by another neighbor, Connie Pike of Anita Court.

Penelope Is in Trouble In Laf-Frantics Show

"Seach for a Penny," the Laf-Frantics of 1959 presentation, is due to hit the stage of the Lafayette Town Hall in three weeks.

And when Miss Penelope Pennypacker, the heroine of this year's melodrama, takes her plunge into the briny deep at the hands of the heartless henchmen (Charles Luna and Dick Burnside), there won't be a dry eye in the house.

THERE IS A villain, a villainess and two henchmen to make things rough on the staunch-hearted hero (Dick Smith), who must save our Penelope.

But that villain will go to his reward, and in the nick of time, and Miss Jerri Burnside, who so coyly enacts the virtuous young maiden, will survive this terrible ordeal to reappear, along with the rest of the cast, in a gay, madcap "Olio" following the play.

All this farce is under the direction of Louise and Dan Wealty of Alamo, and is sponsored by several local organizations for the benefit of raising funds for the Lafayette Community Center.

THE OPENING is scheduled for the weekend of October 9 and 10, and will run for two succeeding weekends.

Tickets are available at Campana's Music store, Lafayette (La Fiesta Square, ATlantic 4-4624). Ducats will sell for $1.50 each.

Special Fire Tax Zone Set for Moraga Area

A special taxing zone of the East Contra Costa Fire Protection District will be established for the Moraga area to "more nearly equalize the payment for fire suppression activities."

Initial steps to formulate the special zone, which is provided for by law, were taken by the board of commissioners of the district Tuesday night, after they district, after they heard a report from the board's special study committee on the subject.

THE COMMISSIONERS indicated that the committee study finally pinpointed the fact that most of the tax money from other areas in the district is going into the maintaining of a modern fire department for Moraga.

In addition to Moraga, the district—largest fire district in the county — includes the areas of Canyon, San Ramon and the agricultural lands between Antioch, Pittsburgh, Brentwood, Byron, Oakley and Knightsen.

There are eight full time paid employees of the district in Moraga, which the commissioners said does not pay the burden of the taxes, although it receives the burden of the benefits.

THE COMMISSIONERS, who have had the matter under study for several months, took preliminary action to assure that the new taxing zone will be effected in time for the 1960-61 tax rate.

Establishment of the special taxing zone would have the effect of raising the fire district taxes in the Moraga area while lowering the taxes in other parts of the district.

Local Ensign Tours On Navy Destroyer

Navy Ensign Charles W. Blount, son of Mr. and Mrs. J. P. Blount of 56 La Cresta Road, is serving aboard the destroyer USS Cogswell operating with the U.S. Seventh Fleet in Western Pacific.

The ship arrived at Pearl Harbor, Hawaii, Aug. 21, for a weekend recreational visit, and in doing so arrived 15 minutes after Hawaii was officially proclaimed this nation's 50th state.

Thus the Cogswell became one of the first U.S. Navy warships to visit the youngest star on the flag.
